VOL. 39

VICTORIA, B. C., SATURDAY, SEPTEMBER 9, 1911

NO. 59

## ON THE FIRING LINE

Remember that the Polls Open at 9 a. m. and Close at 5 p. m. On September 21

It is at least amusing to find the Tory organ, mad in an endeavor to reinstate itself in public favor, abandoning the cry of disloyalty and repudiating the danger of annexation. At last public sentiment has so strongly manifested its revolt from the insult which has been heaped upon it sufficiently to force the Colonist to turn another breakneck somersault. To-day, for the first time since May 9, it proclaims Canada loyal. In doing so it repudiates Premier McBride and Mr. Barnard, who have both heaped insult upon the people of Victoria and of the Dominion by declaring that in a bargain with United States, Britons are incapable of caring for themselves. It is too late. The insult is resented and no evasive explanations can now re-establish the defamers of loyal Canadians in the confidence of the electors.

Reciprocity is a trade issue, and trade knows no sentiment. Let the consumer have his day.

### FOR THE TAXPAYER

True, we have a very fair share of the world's business; but do you know that we pay a handsome subsidy to our ships to enable them to get that business? And do you realize that subsidies are expensive? Reciprocity will increase our foreign business without increasing our subsidies. Do you want that? Or do you want to pay more subsidies to wealthy ship owners?

### FOR THE NATION

The price of wheat in Chicago and Minneapolis is admittedly higher than in Winnipeg. The difference approximates 9 cents a bushel. On a basis of 200,000,000 bushels, the value of our crop would be \$18,000,000 more. Do you want that, or any part of it? Or do you want to practice self-denial?

### FOR THE BRITISH BORN

England's greatest friends agree that England's great struggle for continued supremacy will be with Germany. If that struggle ever must be made England's greatest friends agree that the friendship of America will be of great assistance. Reciprocity will enhance the friendship between the English speaking nations. Do you propose to vote for that friendship or against it?

### FOR THE PATRIOT

If reciprocity loses it will be a confession by Canada that Canadians are afraid that prosperity will prostitute their loyalty. Do you agree to that? That is the argument the anti-party is using. If you repudiate that rubbish, repudiate it at the polls.

### FOR THE CONSUMERS

Sixty per cent of all Canada's imports come from the United States. Do we want to pay the highest possible prices for all these goods or do we want to reduce their cost?

### FOR THE MERCHANTMEN

They tell us that Canadian commerce per capita is the highest of any nation. The Commercial Handbook of Canada tells us that in this particular we occupy fourth place. Do we want to improve this standing or not? Your votes for reciprocity will improve it.

### JUST "NONSENSE"

(Mail and Empire).  
"There is nothing in the annexation cry so far as Canadians are concerned," said Sir James. "Our people are too loyal to British connection to permit it, and will stop it if the Yankees try to bring it about, even if reciprocity does pass." From report of speech by Sir James Whitney, premier of Ontario, at Mount Forest.

### LOOK BEFORE YOU LEAP.

(Halifax Chronicle).  
Every vote for a Conservative candidate is not only a vote against your own pocket, but a vote for Bourassa and that which the Halifax Herald called a policy which is "dangerous to the British in the extreme." Think it over.

## INQUIRY INTO FREIGHT RATES

### ALLEGED DISCRIMINATION BY CANADIAN PACIFIC

Company Replies to Application by Vancouver Board of Trade

Calgary, Sept. 9.—The railway commission, in opening the session at the court house yesterday, plunged at once into the consideration of matters of considerable importance to the people of Calgary and district, and before adjournment for lunch on was taken eight separate matters had been given a hearing and disposed of for the time being.

Commissioner J. McLean, who is sitting here, gave over most of the morning to a hearing of a reply by the railways operating in western Canada to the charge of the Vancouver board of trade that the C. P. R. and other companies are charging discriminatory rates on Alberta grain to the Pacific coast as compared with grain rates to Port Arthur and Fort William. The other applications presented required but a short time to be disposed of.

In the case of the Vancouver board of trade W. B. Lanigan, assistant and chief manager of the C. P. R. for western lines, presented the case of the railroads to the commission attempting to show the resemblances of the mileage tariff now charged. Mr. Lanigan declared that the rates were lower in Western Canada, taking into consideration the existing conditions, than over the western lines in the United States. He presented figures of the Great Northern and the Northern Pacific railways to aid the case of the C. P. R., showing that the scale in Manitoba was slightly higher than in North Dakota for a haul up to 75 miles, and that from there west the scale varies sometimes higher in Canada and with other times higher in the United States.

To show the existing conditions which fixed the rates charged by the railroads, he gave the figures of the density of tonnage, population and cost of hauling in the United States and Canada. From these figures it was evident that the railways of western Canada serve only 33 1-3 per cent. as great a population as the roads in the northwestern part of the United States. On summing up his case, he stated that in consideration of conditions existing the rates west were lower than the rates east. He said that it was to the best interest of the railways to make rates as low as possible, as they wished farmers to come into western Canada, and that low rates were an inducement to the United States when he asked the dismissal of the case.

The United Farmers of Alberta, through their president, James Bowers, asked an order directing the C. P. R. to reduce rates on various commodities shipped between points in Alberta and British Columbia and vice versa. The matter was laid aside for consideration after the decision on the Vancouver rate case, which covers much of the matter contained in the application of the United Farmers of Alberta.

The Mountain Lumbermen Manufacturers' Association, through their secretary, W. A. Anstie, asked an order directing the C. P. R. to provide a tariff schedule on lumber shipments from the interior of British Columbia to points on the Grand Trunk Pacific via Camrose. A previous order of the board had directed the railroads to supply these through tariffs, but the two roads have been unable to reach an agreement. The commission ordered that the traffic managers should get together and attempt to reach an agreement so that the commission might settle it in the best way possible.

### RIOTS AT BREST.

Street-Fighting Follows Demonstration Protesting Against High Cost of Living.

Brest, France, Sept. 9.—A fierce battle occurred here to-day when a large mob of cheaper-food manifestos engaged the troops. At least forty persons were injured.

Twenty policemen and soldiers were badly hurt by stones, bottles and missiles thrown at them by the mob. The troops repeatedly charged into the crowd and an equally large number of rioters were injured by being struck by sabres or by being trampled on by the cavalry horses. The soldiers were not permitted to use their guns.

### Polls Close at 5 P.M.

In all Dominion elections the doors of polling booths open at 9 o'clock a.m. and close at 5 p.m. All votes must be cast between these hours. In provincial and municipal elections the polling stations remain open until 7 o'clock in the evening, a fact which sometimes creates confusion in the mind of the elector. Do not forget that on September 21 the doors of the polling booths will be closed sharply on the hour of 5.

## THE FORGED TELEGRAM

### Canadian Pacific Railway Company's Telegraph

TERMS AND CONDITIONS  
All messages are received by this Company for transmission, subject to the terms and conditions printed on their Blank Form No. 2, which terms and conditions have been agreed to by the sender of the following message. This is an unreplicated message, and is delivered by request of the user under these conditions.

214 vt 22 03 84  
Halifax N. S. Oct. 24-1908.

The Colonist,  
Victoria.

Reports from all parts of Canada indicate victory for the Liberal Conservative party on Monday. In the eastern provinces our friends declare that it will be a repetition of 1878.

We expect to make considerable gains in Quebec and with the exception of that province and possible Saskatchewan we anticipate a majority in every province. Any Liberal majority in Quebec will be more than offset by our majority in Ontario. We have every confidence that British Columbia will do her duty.

R. L. Borden.

9 p. m.

Halifax, N. S. Oct. 24-1908.

The Colonist,  
Victoria.

Your message received. The Conservative party stands for a White Canada, the protection of white labour and the absolute exclusion of Asiatics.

R. L. Borden.

For the enlightenment of strangers or others who may have forgotten the facts, we reproduce two telegrams which appeared in the Victoria Daily Colonist on the Sunday previous to the last Dominion elections and were read by Mr. Barnard at a public meeting held on the Saturday evening preceding. The one indicates how much faith should be placed in Mr. Borden's predictions as a political prophet. The other is the notorious forged telegram which Mr. Borden repudiated in the House of Commons immediately after the elections.

## TROOPS SENT TO RESTORE ORDER

### CHOLERA-STRICKEN TOWN SCENE OF RIOTING

Mob Incensed by Quarantine Rule, Invades Hospital and Removes Patients

Chiasso, Switzerland, Sept. 9.—Gloja del Colle, a city with a population of 20,000 in the Italian province of Bari de la Puglia, has, according to official advices received here, been the scene of savage excesses in consequence of the cholera epidemic now raging in Italy.

The disease is said to have reduced the inhabitants to desperation. The authorities ordered that all persons attacked by cholera should be taken to a hospital and that those who have been in contact with cholera victims, be isolated in a neighboring building.

The population, incensed by the measure and convinced that it was the intention of the authorities to kill the patients and also those under observation, gathered to the number of several thousand to liberate their relatives and friends. The hospital was stormed and the building threatened with incendiarism when the mob was interfered with.

A small force of carabinieri, aided by a few policemen, attempted to awe the crowds, but the police were inadequate to cope with the situation and in order to avoid another outbreak and further trouble the doors were thrown open. The crowds rushed into the building, brought out in cholera patients and carried them in a ghastly procession throughout the town. The streets were lined with people who acclaimed the cholera victims and shouted imprecations against the government. The cholera subjects under observation were also set free amid similar scenes of frantic enthusiasm enacted by the people. The Italian government has dispatched troops to Gloja del Colle.

### A QUESTION OF HUMANITY

During the tour of the Prime Minister a deputation representing the workmen of the country waited upon him bearing two banners with the following devices: "Reciprocity is endorsed by twenty thousand labor union men of Canada" and "Thou shalt not tax the food products of mankind." In Toronto the candidates for Parliament are being asked the question: "Are you in favor of untaxed food for the masses? Anyone who can't answer this question in the affirmative will not get the workmen's vote." Nine-tenths of the workmen I know, says a labor leader in the East, are in favor of reciprocity because it involves the removal of all taxes from food. This is not a party fight by any means. "It is an issue far broader and deeper than politics; it is a question of humanity."

### LISTEN

There is no limit to which the opposition leaders will not go in the present campaign.

Not content with trying to frighten the wage earners on the question of reciprocity they are endeavoring to intimidate real estate investors on the grounds that if reciprocity goes through there will be a panic and nobody will be able to meet his payments, and generally everything will go to smithereens keramash.

They seem to overlook the fact that the C. P. R. says lands will increase 100 per cent in value. There will only be one panic on September 21st, and that will be the panic of the Conservative leaders who will be running helter skelter for shelter from the onslaught of the votes of the people of Canada who are determined to run their own affairs and not to be intimidated or frightened either by the moneyed interests or by the tools whom they hire to accomplish the purposes of their inordinate greed.

## MINERS' STRIKE MAY BE SETTLED

### UNION OFFICIALS ON WAY TO CALGARY

It is Believed Way Will Be Found to End Struggle in Crow's Nest Pass

Fernie, B. C., Sept. 9.—All at once there has crept into the strike atmosphere here a tinge of optimism, as a result of the sudden departure this morning of Secretary Carter for Calgary and the knowledge that the other members of the miners' executive are travelling in the same direction, coupled with the fact that Manager Wilson and President Stockett have been away for two days. Their locality is being kept as secret as possible. This all tends to convince the optimistically-inclined that some important change in the labor situation is about to take place.

Sir Thomas Shaughnessy's presence in Calgary and the trades and labor council meeting at the same place, will, it is believed, have some bearing on the matter.

It is the belief here that the miners are prepared to go direct to the head of authority on mining matters in the C. P. R. organization in an effort to break the barrier which stands between them and opening of negotiations for the settlement of their difficulties with the local management of the mines in the district.

Statements are being made upon the street here that a settlement of the strike will be effected and work resumed by the first of next month.

### CRUSHED IN SHAPTING.

San Francisco, Cal., Sept. 9.—While oiling the machinery of a brick making plant to-day, A. Chezzi was caught in the flywheel and thrown on a broad belt which carried him around the shafting several times, his head striking the roof at each revolution. When the machinery was stopped the dead body fell to the floor.

## CONSERVATIVE-NATIONALIST ALLIANCE DENOUNCED

### Sir Wilfrid Condemns Methods Adopted by His Opponents in Campaign—Sir James Whitney Ridicules Talk of Annexation.

Stratford, Sept. 9.—"Sir James Whitney spoke at North Bay Thursday night," said Sir Wilfrid Laurier yesterday afternoon, addressing a great gathering of ten thousand enthusiastic people in Victoria park. "I had not the opportunity of hearing him, but those who did hear him report that notwithstanding the fact that he spoke from an anti-reciprocity platform and in opposition to the agreement, he stated frankly and fairly that this talk of the loyalty of the Canadian being affected and that there was danger of their being seduced into annexation was sheer nonsense. Canadians are of better stuff than that, and their loyalty to their Mother Land cannot be bought. Sir James Whitney is right in that. He represents the situation just as it is. He is in accord with Sir John Macdonald, Sir George Carter and the great Conservatives of the past who were not affected in their views on reciprocity by any such nonsense—not only nonsense but an insult to the Canadian people." (Prolonged cheers.)

The premier dwelt with outspoken emphasis on the Conservative-Nationalist alliance. "You are told," he said, "that the influence of Laurier in Quebec is on the wane, that a gentle-

man named Bourassa is waging war upon him with his compatriots. There is a measure of truth in this. Mr. Bourassa is the head of a school of so-called Nationalists which is doing its best to destroy Laurier, and every time the declaration is made that the influence of Laurier on account of the activities of Mr. Bourassa and his school is on the wane there is a shout of joy from the Tory organizers and Tory politicians. It may be that the influence of Laurier is on the wane, but if it is I have yet seen no evidence of it. (Cheers.)

"If it is, I say without hesitation that it would be no proud day for Canada and still less for the Conservative party if it is destroyed by the methods which are being used." (Hear, hear.)

The premier charged the anti-reciprocity Conservatives with an unworthy alliance with the Bourassa school in the present campaign. The Montreal Herald, after investigating, had charged that the Bourassa workers were attacking Canada's contribution of contingents to the Boer war and that those attacks were being circulated in the various French Canadian parishes and paid for by the Conservative organization in Montreal, of which Mr. Amos is president.

## DIRIGIBLE BALLOON TRAVELS 350 MILES

Zeppelin Aircraft With Six Passengers on Board Arrive at Berlin

Berlin, Sept. 9.—The Zeppelin dirigible balloon Schwaben, with six passengers on board, to-day arrived at Berlin at 11:45 o'clock, thereby completing its 350-mile journey from Baden-Baden.

The big airship, circled the city and then proceeded to Potsdam, where it made a successful landing. The Schwaben will remain only one day at Potsdam, as the projected "harbor" for dirigibles has not yet been completed. The Schwaben left Baden-Baden on the morning of September 6, and arrived at Gotha in the afternoon. After a two days stop the dirigible ascended at 8:15 o'clock this morning on the final stage of its trip.

## CANADA'S REVENUE CONTINUES TO GROW

Returns for Five Months Show Increase of \$6,206,266 Over Same Period Last Year

Ottawa, Sept. 9.—The total revenue of the Dominion for the first five months of the fiscal year was \$52,036,656, as compared with \$45,830,370 for the same period last year, an increase of \$6,206,286. For August alone, the revenue was \$11,727,444, an increase of \$1,552,514 over August, 1910. The expenditure for the five months totals \$29,826,630, as compared with \$27,546,917 in August, 1910, an increase of \$2,280,000.

### SURRENDERS RAILWAY.

St. Petersburg, Sept. 9.—The value of the railroad between Port Arthur and Juan Chen Tsu, Manchuria, including the rolling stock, which Russia surrendered to Japan by virtue of the treaty of Portsmouth, has been placed at approximately \$10,500,000.

## LIBERAL MEETINGS

### Liberals Attention!

A mass meeting of all Liberal workers of the FIVE WARD LIBERAL ASSOCIATIONS will be held in the Liberal rooms, Cormorant Street, on MONDAY EVENING SEPTEMBER 11 AT 8 O'CLOCK. All workers and supporters of reciprocity are requested to attend.

### EVERY ELECTOR OF WARD ONE

—Conservative as well as Liberal—is most cordially invited to attend a

### Smoking Concert

## THREE BLUES TO ANDREW LAIDLAW

### HORSE SHOW PROVIDES EXCITEMENT AND FUN

Five-Gait, Saddle, Polo Ponies, Trotting and High-Stepping Exhibits Entertain Crowd

Five-gaited saddle horses, polo ponies (7), trot racing, and a water jump turned the horse show last night into a scene of novelty exhibition, aroused more popular interest than any night of the show so far, and kept spectators on the tip of anticipation and pleasant realization throughout the three hours of the show. The attendance well filled the seating capacity and was almost as large as that of the record night of Thursday.

Andrew Laidlaw's pair, Ambassador and Lady Mathias, were again winners securing blue ribbons both in tandem and carriage classes, and then Ambassador audaciously came into the ring alone and took away the blue ribbon from Tilly and White Stockings in the Victoria class.

It is worth a trip to the horse show to see Ambassador move. The magnificent horse has a springy movement, brings his knees high, and yet strides freely. The horse is 16 hands and some of the disappointed exhibitors whose beauties were outdone, by Ambassador thought 16 hands too high for a carriage horse. However, S. P. Fuller, the judge, and the public, by applause given, are of a different mind.

A highly exciting race was given by drivers of Lord Ruth, Dorothea, Florham Wanda and a fourth horse in the ring, in company with Culbaven. Extravagant Queen, driven by Miss Holman, who was the only driver to keep her steed to the trot without breaking. Sharp corners and risky turns, close wheels and no speed laws brought buggies close to gether on more than one occasion and the drivers seemed to be trying to hear the clasp of each other's buggies and the side of the fences without damage.

Of the novelty events seen at the horse show there has been none of more interest to the general public than the exhibition given last night by five-gaited saddle horses, in which the coachback Jester, exhibited and ridden by Miss Stimson, won a well-merited victory from a strawberry roan with black tail and mane, by name Rosia, the exhibit of D. Doering.

The five-gaited saddle horse is not a usual animal, and from the remarks of the fox trot, the single foot, the pace, the ordinary trot, the canter and the walk all in one animal had not been seen by many.

Jester deserved his victory and obtained the blue as much on Miss Stimson's riding as on his perfect foot work. His rider broke him into the different paces immediately in the order was given and the horse suddenly changing his feet from one movement to another called forth burst after burst of applause from all over the show ring.

Queen was not up to the weight and was sent from the ring. A wheeze brought about the downfall of a pair in the city delivery class under 1,300 pounds. The judge, suspicious of the mare, placed his ear to her nostrils and then sent the exhibit out.

Stragglers at the horse show are provided for, according to the announcement of Ringmaster, Clements, that the street cars would be kept until after the finish of the last event. The announcement was being applauded when the brightly apparelled gentlemen who, by the way, had forgotten his white garb since the opening night, told the spectators that a stragglers' car would leave half an hour after the other cars had gone. A wild cheer rent the air, the stragglers approving the innovation.

The horse show is in all respects successful and to-night, unfortunately, is the last night, but the closing programme contains the piece de resistance of all, the high jumping contest. There are also high stepping competitions and carriage, saddle, and hunter horse competitions.

Last night's official results are:

Class 1—Cob, 1400 lbs., and over—1st, Shorty, Nelly, Sandy and Dan, exhibited by J. Richards.  
 Section 11—1st, Dan D., exhibited by F. A. Thompson; 2nd, exhibited by Frank Adams; 3rd, exhibited by W. Lynch.

Section 23—Tandems; mares or geldings, 15.2 and over; different owners may combine in this class—1st, Ambassador, ch.g., 8 years, and Lady Mathias, ch.m., 5 years; exhibited by Andrew Laidlaw, Spokane; 2nd, Warwick Doria, ch.m., 3 years, and Lord Ruth, b.g., 7 years.

Section 16—Pair of mares or geldings, 15.2 and over; to be shown to a brougham; horses to count 50 per cent, brougham 25 per cent, harness 15 per cent, livery 10 per cent—1st, Ambassador, ch.g., 8 years, and Lady Mathias, ch.m., 5 years; exhibited by Andrew Laidlaw, Spokane; 2nd, exhibited by W. E. Hann.

Section 42—Saddle horses; three years old and over, up to carrying 400 lbs.—1st, Highland Marksman, b.g., 6 years; exhibited by Miss Lura Galbraith, Seattle; 2nd, Rosalind, ch.m., 6 years; exhibited by Andrew Laidlaw, Spokane; 3rd, The Moor, b.g., 9 years; exhibited by Miss Helen Farrell, Seattle.

Section 43—For the best performance over post and rail, bench jump, in and out jump, water jump—1st, Flash, exhibited by Victor Spencer; 2nd, Never Mind, ch.g., exhibited by Mrs. P. Burns, Calgary; 3rd, Sport, ch.g., 6 years, exhibited by James McCleave, Victoria.

Section 35—Polo ponies. To be shown with mallet. To be judged for their manners, handiness and conformation. 2, Ruby, ch.m., 4 years, exhibited by Jas. McCleave, Victoria; 1, Nellie, ch.m., 5 years, exhibited by Jas. McCleave, Victoria; 2, Indian Maid, exhibited by T. McEvoy, Victoria.

Section 17—Mares or geldings, 14 and over. To be shown to a Victoria. Horse to count 50 per cent, Victoria 25 per cent, harness 15 per cent, livery 10 per cent—1, Ambassador, ch.g., 8 years, exhibited by Andrew Laidlaw, Spokane; 2, Tilly, b.m., 7 years, exhibited by W. S. Holland, Vancouver; 3, White Stockings, ch.g., 6 years; exhibited by J. E. Savage, Victoria.

Section 6—Pair of mares or geldings 3 years and over, under 1,300 lbs., as used for city delivery. To be shown to a four-wheeled vehicle. Horse 70 per cent, appointments 30 per cent—1, Lady Dix, b.m., and Silver R, s.g., exhibited by D. H. Ross & Co, Victoria; 2, Glen, b.g. and Prince, b.g.; exhibited by F. R. Stewart & Co., Victoria; 3, Shorty, ch.g. and Jim, b.m., exhibited by West End Grocery, Victoria.

Section 44—Five-gaited saddle horses, 3 years old and over, up to carrying at least 160 lbs. Conformation 50 per cent, performance 50 per cent—1, Jester, exhibited by Miss Stimson; 2, Ruby, exhibited by C. Doering.

Section 47—Hunters' horses. Middleweight, up to carrying 175 lbs., and when shown must carry not less than this weight. Conformation and quality to count 50 per cent, performance over fences, 50 per cent—1, Comrade, b.g., exhibited by J. N. Storiey, Vancouver; 2, Queen, b.m., exhibited by Dix H. Ross & Co., Victoria; 3, Sport, ch.g., 6 years, exhibited by Jas. McCleave, Victoria.

Section 19—Horse, 14.3 and not exceeding 15.2. To be shown to run about. Horse 60 per cent, appointments 40 per cent—1st, Florham Wanda, exhibited by Miss Stimson; 2nd, Dorothea, exhibited by Andrew Laidlaw, Spokane; 3rd, exhibited by W. Sharpe.

Section 50—Jumping class. For the best performance over 6 hurdles, 3 feet 6 inches timber, and 6 inches brush—1st, Flash, exhibited by Victor Spencer, Vancouver; 2nd, Comrade, exhibited by J. N. Storiey, Vancouver; 3rd, Ruby, exhibited by Jas. McCleave, Victoria.

Section 51—Hunt teams. Three hunters from any recognized hunt club. Conformation and quality to count 50 per cent, performance over jumps 50 per cent. No member to ride more than one horse in any one team. To be ridden singly over post and rail, brush jump, in and out jump, and water jump. Average excellence of team to determine award—1st, Vancouver Hunt Club; 2nd, Victoria Hunt Club.

**FIRE CHIEFS' CONVENTION.**  
Chief Davis Will Address Delegates of General Fire Duty.

To-morrow afternoon Fire Chief Davis will tie himself to the matpland to take part in the annual convention of the Pacific Coast Fire Chiefs' Association, which has been arranged to commence on Monday.

The fire chiefs of all the leading cities on the Pacific coast from Los Angeles to Victoria, and as far inland as Calgary, will be present at the convention and many important matters relating to fire fighting apparatus and the like will be discussed.

Chief Davis is down on the list for a paper on "General Fire Duty," a subject which he is likely to treat in a masterly fashion.

## SUCCESSFUL MEETING HELD AT COLWOOD HALL

Large Attendance and Great Enthusiasm for Smith and Reciprocity Pact

A largely-attended meeting in the interest of the candidature of Ralph Smith was held last night in the public hall at Colwood. A number of ladies graced the occasion by their presence. Capt. Gosse occupied the chair and gave a short but forcible endorsement to the reciprocity cause.

E. J. Stackpole, K.C., made a telling address in which he reviewed the record of the Laurier government, showing how through its hand policy and immigration work, it had settled up the west and made Canada prosperous. He showed how the present reciprocity agreement came to be negotiated, and that it was the best logical step in the direction of reduced tariffs toward which the Liberals always had faced. The meeting grew enthusiastic as he reviewed the discontent over high tariff conditions in the United States. He made personal reference to the candidature of Ralph Smith, and predicted his overwhelming majority on election day.

Walter W. Baer dealt with the economic aspects of the reciprocity pact, giving facts and figures to demonstrate its adaptation to present trade conditions in Canada. He completely convinced his audience, composed entirely of farmers, that the agreement would work out as completely in their favor as in the case of any other class.

At the close of the address several of the old settlers made brief remarks, warmly applauding the agreement, the Liberal government for introducing it and predicting a solid vote for Ralph Smith in that district.

**MILL WOOD**  
For Sale at DAVERNE'S WOOD YARD, FORT ST., \$300 a double load.  
PROMPT DELIVERY.  
Office, 1615 Douglas St. Phone 97.

## ACRE LOTS

An acre is the perfect size for a lot in the suburbs. It is a size which ensures privacy and breathing space for the family, yet provides ground for truck gardening, chicken raising, or fruit growing, on a small scale.

We have 50 such lots in a new subdivision of Braefoot Farm, on Cedar Hill cross road. They offer every possible variety—level, cultivated lots, wooded lots, bluff and rocky lots. Remember, they lie on the 2 1/2 mile circle.

## Facts Truthfully Told

With the change in the weather the "outer garment question" is perhaps the one uppermost in your mind, so we devote this space to-day for the purpose of laying further stress on our appeal to Victoria ladies to inspect our showing of Coats, Suits, Waterproofs (and every other line as well) and see if the Values R. & A. offer you are not exactly as frequently put in print in this space, i.e. values obtainable only HERE.

We GUARANTEE our CASH prices to be the lowest ever offered in Victoria, we further GUARANTEE that for quality and price we hold the lead; and no wonder, for we buy for cash ourselves and give you the greater profit.

Our lines of Suits start at a modest \$15.75; the Coats start at but \$6.50; Separate Skirts at \$3.75 (Mellon cloth); Mackintoshes with silk surface effect at \$8.25; Children's Waterproofs, Capes from \$1.85; and Umbrellas from "a little dollar."

The MEN'S section, too, is well worthy of inspection and comparison.

**MOTOR BOATS COLLIDE.**  
 Astoria, Ore., Sept. 8.—The series of accidents to motor boats at the regatta here culminated yesterday, on the eve of the highest race, when the Red Top III, owned by W. E. Hughes, of Bellevue, Ia., collided with the Sylph, owned by Kendall of Portland, and driven by his wife. The Red Top's bow was smashed. The Nuvex Piler and the Prawn II, of Sacramento, have suffered accidents as well.

The accident in the Red Top narrowed the big two-for-all of the Pacific Coast championship down to a race between the Oregon Wolf and the Wigwag II. The Wigwag II following her sinking and raising of yesterday was an easy second. The Wolf in one lap gathered a speed of 37.71 miles.

**TRADES CONGRESS.**  
 Eastern Delegates Are Now on Their Way to Calgary.

Toronto, Sept. 9.—The Trades Congress of Canada opens in Calgary on Monday, September 11. The delegates who will represent the Toronto district council, Messrs W. Glocking, W. Worrell and F. Bancroft, started for that city Thursday. There will be about thirty delegates from Toronto, Vancouver, and Quebec, and the other eastern provinces will have about thirty more. Several of the eastern delegates passed through Toronto yesterday.

The man who can please a woman and keep her pleased has no time for anything else.

**FLOODS IN YANGTZE VALLEY SUBSIDING**

**Thousands of Survivors Are Homeless and Destitute—Suffering Will Follow**

Hankow, China, Sept. 8.—The floods resulting from the Yangtze river overflowing its banks, which transformed hundreds of miles of the Yangtze Valley into an enormous lake and caused great loss of life, are gradually subsiding.

In addition to the heavy death list, many thousands of the natives have been made homeless and destitute. The rich crop in the provinces of Hupeh and Hunan probably will be an average one, but other cereals have suffered heavily.

The rice crop in Ngan-Hwei, another province watered by the Yangtze river, is one of exceptionally poor quality.

**WOMEN FOR TOWN OFFICERS.**  
 Kansas City, Sept. 9.—That she will fill all the important town offices with women who are her friends and supporters and give the town of Hunnewell, Kas., a clean government in satisfaction of the "rice men" who constitute the Hunnewell city council, was the statement made by Mrs. Ella Wilson, mayor of Hunnewell, following a conference with C. W. Trickett, appointed by Governor W. B. Stubbs to assist in disentangling the municipal affairs of Hunnewell.

"It is too late for the tax levy now," said Mrs. Wilson, "but we'll get along without it. I shall appoint women who will serve without pay to the offices of town marshal, city clerk, city treasurer and superintendent of streets. I am confident Hunnewell's affairs will be straightened out now in spite of the councilmen. A woman marshal could out 'bring tigers.' Women get used to smelling their husband's breath. I shall place my confidence in a woman marshal."

Further than to say that mandamus suits might be brought to compel the councilmen either to transact the business of their offices or get out, neither Mayor Wilson nor Mr. Trickett would disclose what plan of action against the rebellious council had been evolved.

**IMPERIAL UNITY.**  
 Melbourne, Australia, Sept. 9.—Premier Deakin in his address at the opening of parliament, expressed his approval of the work of the Imperial conference, but strongly deprecated statements made questioning the position of Australia in the matter of Imperial unity. The commonwealth, he asserted, was not within the Empire when there was something to be gained and out of it when there was anything to lose.

The talk of Australia maintaining a neutral attitude when the Mother country was at war was nothing but incredible folly. Premier Fisher said he had already asserted that the loyalty of Australia to the Empire was beyond all challenge. The word that he had to say in connection with the matter was that he considered the general liberties of the Empire as too sacred to be endangered under any circumstances.

**SEEKING RELIEF.**  
 Drought Responsible For Increased Cost of Living in Germany.

Berlin, Sept. 9.—In view of the great increase in the cost of living, owing to the summer's drought, the Berlin Chamber of Commerce and the Merchant's Guild have petitioned the government to reduce the tariff on grain, fodder, etc., by applying a special classification to these products and to cut the duty on potatoes by fifty per cent. The new rates to be effective until August 1, 1912.

The minister of agriculture has ordered the sale of fodder at reduced prices.

**PROGRESS ON PANAMA CANAL.**  
 Washington, D. C., Sept. 9.—The Panama Canal has just been extended to its full width and about half of its complete depth at the Atlantic entrance. Here the bottom of the waterway will be 500 feet wide and the depth will be 41 feet. The entrance has been widened to the required width of 500 feet and a depth of at least twenty feet has been reached over this distance. A fleet of dredges is now clawing away at the bed of the rock in the remaining 21 feet. This width of 500 feet and depth of 41 feet ultimately will extend from deep water to the Gatun locks. The usable width of the locks of the canal however, will be only 220 feet.

**WELLAND CONSTITUENCY.**  
 Welland, Sept. 9.—Louis Kinnear of Port Colborne, who was nominated by Liberals last Friday to oppose W. M. German, the old-time Liberal member who is opposing reciprocity, announced this morning that he had withdrawn from the field. Mr. German will now be elected by acclamation, although Mr. Kinnear would make no statement on this point. It is learned that he was informed by Sir Wilfrid Laurier that he was perfectly satisfied with Mr. German.

**MOURNED AS DEAD.**  
 Richmond, Cal., Sept. 9.—George Weber, a painter, arrived at his home here yesterday after an absence of two months, to find his wife in mourning, thinking she was a widow. After Weber disappeared, a body was found in the bay which was identified by Mrs. Weber by the clothing, as that of her husband. Funeral services were held. Mrs. Weber said her husband was unable to explain his absence, except that he had been in a dazed condition.

Never bring the family skeleton out of its closet for an airing when strangers are present.

**SEEKING SITE FOR BIG STEEL PLANT**

Representative of English Capitalists is on His Way to West

London, Ont., Sept. 9.—A. W. Farnsworth, consulting engineer of London, England, visited this city yesterday in the interests of English capitalists who are looking for a location for the erection of a \$5,000,000 steel plant. Mr. Farnsworth is visiting all the principal towns in Canada. To-day he leaves for the west.

**THINKING THEMES**  
 BY DR. FRANK CRANE

Did you ever think of the irrationality of names? When the world was young, people were named some name that more or less fitted them. Jacob means supplanter, and his name was a f t e r w a f d changed to Israel, or Prince, for as good a reason. All through the Old Testament significance attaches to names. Now-a-days to be named Smith or Jones or Robinson is no more than being numbered 36 or 17 or 23. Except that when a man walks into a Western mining camp, he is "sized up" and given a title, as Slim Jim or Black Jack, entirely setting aside his family and baptismal names.

Names are really tyrannies. A man should have the privilege of selecting his own name, when he grows up and finds himself out.

Think of being a poet, and having to subscribe your verses with one of those bluegown names, as Dobbs, Boggs, Butts, Mudge, or like the Ettrick Shepherd—Hog.

Emory Storrs, the eminent Chicago lawyer of a former generation, once said of a witness's name, which was given as Archibald Wellington Constantine Tubbs, that it sounded like a trunk falling down stairs.

Personally, I loathe my own name and would much prefer being called C. 42.

The only sensible names are the numbers in a prison and the nicknames of youth.

**RECALL MOVEMENT FAILS.**

Seattle, Wash., Sept. 9.—The recall movement against Mayor George W. Dilling collapsed yesterday when Corporation Counsel Scott Callison notified the city comptroller that the city charter does not contemplate the certificate of recall, and that the city comptroller is not finally and legally certified until after the date set for the filing of supplementary petitions, and withdrawals of names. Withdrawals of more than 300 names from the petition were filed yesterday and the recall petition at once became void.

**Rebuilding Sale**  
 Unusual Opportunity to Buy Furniture, Carpets, Linoleum, etc. at Remarkably Low Prices

Many satisfied customers have found it to their advantage to make their Furniture purchases now. Our usual low prices have been cut to profitless proportions as we are anxious to clear out our large stock at once. We must have room for the builders to work in, so now is your chance to secure

**SMITH & CHAMPION**  
 1420 Douglas St. "The Better Value Store" Near City Hall

**INVESTIGATING CHARGES.**  
 New York, Sept. 8.—Agents of the United States government and abroad are investigating charges brought by American merchants against three steamship companies whose boats ply between New York and South American points. Alleged discrimination in freight rates is charged, and a suit charging violation of the Sherman anti-trust law may follow the completion of the investigation, according to the United States district attorney.

**BANK ROBBER ROUTED.**  
 Laurel, Md., Sept. 8.—A masked man entered the Citizens' National Bank here today and at the point of a pistol demanded the money that was lying on the desk beside the receiving teller. The would-be robber was forced to flee before he could secure the money. Cashier Walter fired two shots at him. So far as can be ascertained the cashier's shots had not taken effect.

When the stranger appeared at the bank only the receiving teller, A. R. Evans, and a customer were in the office. Presenting his pistol, the bandit commanded both to throw up their hands. He then ordered the teller to get the money on the desk into a sack which the hold-up man thrust through the window. At this point Cashier Walters appeared in the door of his office, revolver in hand. He quickly fired two shots and the marauder dashed into the street and gained the shelter of the woods. The hold-up man was captured later.

**PIONEER BANK OF BRITISH COLUMBIA.**  
**The Bank of British North America**

## THE CAMPAIGN.

Nothing could be more gratifying to the Liberals of British Columbia than the manifest evidences of the impression being made by the steady impact of the fiscal arguments that are put forward in support of reciprocity. The opposition to the reciprocal trade arrangement with the United States when viewed from an economic standpoint has almost wholly disappeared. Every figure published which on its surface seemed to disprove the advantage of the pact has failed when analyzed. There can be no doubt that the people of Canada as a whole will be tremendously benefited by the ratification of the agreement. In British Columbia the fact that seventy-five per cent. of the imported foodstuffs are already brought into the province from the United States and that this condition must continue to obtain for many years has solidified the vote of the consumers to a degree unparalleled.

In Victoria the local issues, the personality of the candidates, and the maintenance of a portfolio in the government have added mightily to the Liberal strength, and there is accruing day by day a settled determination on the part of many who are of Conservative proclivities to cast the "silent" vote.

Ralph Smith's forces are rallied to a pitch of loyalty and determination never before so harmoniously uniting the Liberals of the Nanaimo constituency.

It is conceded by Conservatives that Dupont Ross is practically elected in Comox-Atlin.

H. J. Senkler in Vancouver has surprised even his own party organizers by the strength he has developed. His election seems no longer a debatable matter.

John Oliver, the old war horse of Delta, has almost the solid vote of the rural districts and will poll every Liberal ballot in the city of Westminster.

Our advisers from the interior assure us that Dr. King will carry Kootenay against Goodhue, the Liberal candidate having the undivided support and influence of the lumbermen of the interior.

## DANGERS OF FREER TRADE.

That the development and increase of Canada's trade relations with the United States may lead to such closer contact as to endanger the unity of the Empire is the vaunted fear of Conservative leaders. It may be said that the rank and file have no such fear excepting as they mouth the words they learn at their political schools. Reduced to the last analysis, they have no other objection to the pact and that this objection is futile must appear from a reasonable reading of the history of our trade with Americans. The statistics of our trade with the United States dispose effectually of that anxiety.

Our trade with the United States in 1891 amounted to \$100,784,985, in 1892 to \$162,567,064, and so on, until in 1910, the last year for which the full official figures are available, it amounted to \$352,221,227. For 1911 the total will be over \$400,000,000. Last year's total was some \$120,000,000 greater than the trade of Canada with Great Britain.

Thus we see that our trade with the United States, which was, in round numbers, \$100,000,000 in 1891, the year when Sir John A. Macdonald made reciprocity the ground of his appeal to the people of Canada at the polls, has increased to \$400,000,000. And as that huge increase has gone forward, annexation sentiment, of which there was a body in Canada in 1891, has died and been buried, deeper and deeper, year after year. There is none of it in Canada now. As portrayed in a recent cartoon, it has been dead so long that it cannot get up a respectable ghost.

We can appreciate the strong desire of an honest Conservative to uphold and vote for his party. That is an honorable and unimpeachable attitude for any elector to take. Had the Conservatives of Canada taken the stand that they must vote as a party in order to obtain power as a party every member of that party might be acclaimed honest and worthy of respect for his party allegiance. But to base such opposition to reciprocity on trade anxieties and to parade the negation of loyalty as an argument against it is not a position that can honorably be taken by any Conservative who reads the history of our trade. If sentimental reasons must be found as a basis for opposition to reciprocity, let them at least be honest in their sentimentality and not based upon unstable

foundations. The whole argument that increased trade must decrease loyalty or fiscal independence is nothing less than a stultification of intellect in this enlightened age.

Moreover, the claim that we buy more than we sell from the United States does not affect the question. When discussing the probable effects of increased or comparative trade under reciprocity we must, to be consistent, confine ourselves to the statistics of such trade as will come under the new terms. It will be seen from these that the volume of trade which will be affected favorably by reciprocity is much larger in exports from Canada into the United States than the other way. The statistics of our trade in articles coming under the reciprocal trade agreement for the year 1910 are as follows:

Exports to United States		Imports from United States	
	Value		Value
Living animals	\$ 12,107,501	Grain of all sorts	\$ 3,118,217
Flour and other grain products	56,750,371	Flour and other grain products	17,088,324
Fruits, green and ripe	17,867,361	Fruits, green and ripe	570,649
Hay	4,722,157	Hay	5,738,289
Provisions, buttermilk, cheese, lard, eggs and meat	1,835,849	Provisions, buttermilk, cheese, lard, eggs and meat	138,423
Seeds	4,002,797	Seeds	1,181,174
Vegetables	1,534,228	Vegetables	1,313,624
	\$139,227,614		\$33,185,719

Statement by Mr. Fielding March 21, 1911.

Thus it will be seen that we sold to the United States almost four times as much of the things we had for sale as imports of the same kind coming into Canada. Doubtless the volume passing both ways would have been much larger but for the duties imposed by both countries. How the removal of these duties can affect unfavorably the trade conditions, the fiscal independence or the loyalty of Canadian people is a mystery no Grit mind can fathom. Only the wish can be father to the thought.

Let the Conservative party break away from its shallow insults to the intelligence and attacks upon the loyalty of Canadian people. Let them assert, as they have the right to do, the honorable right—that this conflict is a conflict between political parties for political supremacy in the Dominion; let them confess that the seats of the treasury benches are cold, unfeeling and uncomfortable and that they have been on them long enough. Canada could respect them then and no lowering of the dignity of a mighty nation in the eyes of the world by intruding the loyalty of its citizens would be necessary.

The present campaign tactics are void of reason, and they cannot win. Canadians will not stultify themselves by proclaiming their fear that their adherence to British institutions and the British Crown can be subverted by terrors at the prospect of increased prosperity. Nothing so degrading or humiliating has ever been suggested to the sons of the British race as that the weight of their pocketbooks is the avoirdupois of their loyalty and they will unflinchingly resent the imputation that they must be kept poor in order to guarantee the supremacy of the British flag in Canada.

Mr. Barnard is in a position to answer the question: "Who forged that telegram?" Also: "Why did he continue to hold a seat obtained by such means?"

The Mail and Empire, reproducing on its front page an editorial from an alleged southern paper, a la Chicago Democrat, dealing with annexation, heads it "A Southern Paper's Continental Dream." Verily, and even so.

Official Bulletin.—It is hard coughing and but little expectation for the consumptive Tory organs throughout Canada these days. Feeble pulse, temperature declining, collapse imminent. Administration of oxygen recommended.

The advocates of trade obstruction would not allow a year's trial before taking a vote of the people. They demanded a verdict without the evidence. The rules of parliament enabled them to do so. Evidently they are not fit to enjoy the liberty of such rules.

Sir William Van Horne took the stump last week with R. L. Borden and made a speech—full of the old platitudes against reciprocity. Sir William has evidently not forgotten that fifteen years ago he promised to "make the grass grow in the streets of Victoria." Neither have Victorians.

"It means a big thing for us," says Mr. Gardhouse, the great Canadian horse dealer, in speaking of the reciprocity agreement. Last year there were exported from Canada \$533,867 worth of Canadian-bred horses. Of these \$43,136 worth were exported to the United States.

The tusk of a mastodon has been found at Forks Road in Welland county, Ontario. From time to time in the past other relics of this prehistoric animal have been turned up in sections of the Western Ontario peninsula. In past millenniums there was greater hunting in Canada than even the politicians are now carrying on. Montreal Gazette.

The Times calls attention to the long list of prominent Conservatives in Can-

## COAL

**That Means Comfort**

The perfect quality of our Coal insures steady, uniform heat. It burns freely and consistently and without waste until it is reduced to ashes. Let us supply you and you won't be bothered with the cinders that are the result of inferior Coal.

**V. I. COAL CO.**  
 618 YATES ST. TEL. 129.

ada who constitute but a fractional part of the great cleavage that has taken place in the Tory ranks on the reciprocity issue. The positions of these men in the communities they represent bring them into strong contrast with the money barons of the Liberal party, who oppose the reciprocal trade agreement.

The Provincial Gazette this week announces the resignation of Francis H. Shepherd as chief inspector of mines. The morning paper announces that the position will be filled in a few days. In the meantime the staff of inspectors is without a chief and it is dollars to doughnuts the place will not be filled till after September 21st. If Shepherd loses his deposit he can go back to his old place. Hurrah for politics.

The morning paper in three columns of choice hysterics of what does not even purport to be argument against reciprocity, or against anything else in particular, concludes with this remarkably philosophical delirium: "A man in the swift current above Niagara may be free to swim as he will, but he will be carried over the cataract just the same as if he were tied hand and feet." It is very consoling to find our esteemed contemporary realizing how cruelly the current is sweeping it to destruction and is preparing for the fatal plunge on September 21st.

Rev. J. M. Thompson, dean of divinity in Magdalen College, Oxford, has been deprived of his right to act as a Church of England minister because in a book he argued against the accepted version of Christ's birth; held that the Resurrection was spiritual, not of the body and condemned the idea that miracles were wrought. Oxford theology has been regarded as leading to the acceptance of all that is recorded as revealed rather than as leading to the newer criticism of the rationalists. The Montreal Gazette says Mr. Thompson's book must have caused a shock in the home of the lost cause.

We have always had great faith in the fairness of the Monetary Times (Toronto). It is a great and powerful financial paper and it is opposed to reciprocity. In spite of this we have always, until to-day, been prepared to accord it our confidence and believe it could play the game with impartiality and fairness. Judge of our surprise when the issue of Sept. 2 came to our desk with an editorial reprint of what purported to be an oft-quoted extract from President Taft's speech and now famous as "The Parting of the Ways." The Monetary Times, in common with all avowedly Tory papers, omits all the qualifying sentences from the speech and prints what suits it with the usual marks to indicate that it has left but something. There is something radically wrong with the opposition to reciprocity when great and powerful journals find it necessary to deceive by publishing half truths.

To demonstrate how thoroughly and how eagerly anxious the leaders of the Conservative party were in their desire for a reciprocal trade agreement with the United States we quote the following from an article by Hon. G. E. Foster in the University Magazine, December, 1910: "Our reply to Uncle Sam should be: Granted that you fully realize that... no scheme of reciprocity which interferes therewith (i.e. with Canada's autonomy) is desirable; that understood, we welcome the fullest trade and intercourse consistent therewith. Meanwhile, as a neighborly beginning, could you not give our products tariff entrance to your market on the same terms which we accord to yours in our market? This would be an earnest of good feeling, and might dispose us to further converse." This was no longer ago than the eve of 1911.

**THE TARIFF FIRST.**  
 (Canadian Co-operator.)  
 For a generation or more the North American continent has been the happy hunting ground of parasitical interests in industrial life. Firstly we have the protective tax, then the merger, and then the trust or monopoly. Both as a producer and consumer has the worker been taxed for private profit. The "interests" which enjoy these huge unearned emoluments, have burrowed themselves into the political life of the United States and Canada. But, first, the protective tax.

**A RURAL VISIT.**  
 (Simcoe Reformer.)  
 Borden wanted to go to the country, and evidence accumulates daily that he will stay there.

# TO-DAY'S ATTRACTIONS

Imported Tweed Coats \$20; Smart Fall Costumes from \$16.75, and Men's Rain Coats worth \$12 for \$7.50

## Some Sterling Values in Boys' Suits in Good Tweed Mixtures

There is no room for doubt, once you see the goods, that the quality is all that you can wish for. They are strong, stylish and well tailored, in fact we consider that they are the best and most serviceable stock that we have handled. Every suit is well tailored, all the care and skill that is to be found in our best men's suits have been put into this line, consequently we have absolute confidence in the goods and heartily recommend them to you. These suits are made of high grade tweeds, in mixtures of browns, greys and greens, and range in price from \$4.50 per suit down to .....\$3.75

## Men's Raincoats, Newest Styles, Worth \$12. To-day \$7.50

This is an unusual opportunity for you to provide yourself with a smart new Raincoat at an unusually low price, especially when you consider that the season has not more than begun. The fact is our buyer has made an unusually large purchase at a special price, and although we could make a larger profit by selling this stock in the usual way, we prefer to sell at a smaller profit and secure a rapid return on the outlay. They come in dark grey mixtures made of closely woven cravenette in neat and stylish cuts that button snugly up to the neck. They are splendidly made, are positively showerproof and represent wonderful value at .....\$7.50

# Choice Costumes in Many Favored Styles for the Opening Season

This year our Mantle Department is stronger than ever in the display of dainty and serviceable garments, and we are prepared to meet almost every demand.

As regards styles, materials and colors, these garments are copies of the highest priced models and have been made especially for us under most exacting specifications. We have insisted upon having the highest grades of materials and workmanship, and we have every reason to believe that we can now offer the very highest values in ready-to-wear suits at a moderate price.

**AT \$16.75** we are offering some very smart suits in Tweed mixtures and Venetian cloths, in a variety of popular colors. The coats are plain tailored, 28 inches long and lined with good silk serge, while the skirts are in plain gored and plaited styles. To those women who desire a more dressy costume we can show some splendid models at this price—they are beauties and must be seen to be appreciated.

**AT \$25.00** you can choose from a very large and interesting selection of costumes made of high grade Tweeds, Venetians, Cheviots and Diagonal Serges in all the newest colors. There is a tone of distinction about these costumes that is not usually found in the ready-to-wear garment. The coats are 26 inches long and come in the semi-fitting and box styles, are lined with striped silk serge and the sleeves are finished with a four-inch cuff. Many of these costumes have a smart sailor collar with square cut revers, and the skirts are made panel back and front.

**SMART TAILORED COSTUMES**

These costumes should appeal to all women who usually go to the tailor and have their garments made to their special order. While the prices we are asking for these garments is far below the cost of the specially-tailored garment, we do not consider that better value could be given than these suits represent. This line includes the smartest models that we have ever seen in the ready-to-wear line and are splendidly finished. Price **\$37.50**

**NOVELTY STYLES**

In this line we are now showing some very attractive styles with 28-inch coats with large shawl collars faced with striped velvets or satins and handsomely trimmed with braid, etc. The coats are lined with good Skinner satin and the skirts are made in plain gored styles with the loose panel or sash effect. Prices start at \$75 and range down to **\$35**

## Women's Raincoats at \$25

These are most serviceable garments, are made with Raglan sleeves, large turnover collars, in single and double-breasted styles, that will button up close to the neck. Some have deep turnback cuffs, while others are fitted with small straps and buttons to tighten up the cuffs. The colors are mixtures of greys, greens and browns. Pockets are inside the coats and all the seams are double-stitched. All sizes to be had in this line at prices starting at .....**\$25.00**

## Imported Tweed Coats \$20

At such a moderate price we doubt whether this line can be beaten in any of the Western provinces. These garments come in tweeds, basket cloths and broadcloths, made up in semi-fitting styles, in double and single-breasted models. The collars are the popular military, storm or shawl styles, some of which are faced with plain velvet and pipings of velvet of contrasting colors. Have deep turnback cuffs trimmed to match, and smart patch pockets. Special to-day, each .....**\$20.00**

## Women's Skirts Very Attractive Styles and Values displayed here

**TWEED SKIRTS**, made in the six-gored styles, with panel back and front, wide double-stitched seams, small patch pocket on the right hip, and come in colors, grey and brown mixtures. These are very smart outing skirts, and may be had in all sizes. Price .....**\$7.50**

## Warmer Underclothing for Women and Children

**WOMEN'S VESTS**, in cream and natural color, have high neck, long sleeves. Drawers to match, in knee or ankle length. Price .....**90c**  
**WOMEN'S VESTS AND DRAWERS**, vests have low neck, short sleeves and open fronts. Drawers to match. Per garment, 60c and .....**50c**

POTLATCH PEOPLE ARE DECORATING THE CITY

Streamers of Flags Line the Streets and Ornament Automobiles in Colors

Government street last night and this morning took on in part a festive appearance as a result of strings of red, white and blue pennant flags strung along the street on the electric light poles.

Other automobiles are taking on the flag decorations, which are to continue over Monday, when the carnival officers say they will have the work complete.

Flags will be hung from Cormorant to Belleville streets along Government street on both sides, and up Yates and Fort streets.

The burnt block on Government street will appear disguised during next week, as the potlatch managers have obtained permission from the owners to use the block and from the city to have attractions there.

The blocks have been let out in forty feet squares and there is hope that the city will be taken over for the carnival.

It is the intention to take them down after the potlatch and keep them for use on public occasions when decorations of the kind may be in order.

If the potlatch becomes the success that the organizers hope it will be, they intend to make it an annual event, in line with a plan suggested to establish similar carnivals in all the cities of the northwest next year.

Plenty of birds and deer in the vicinity of the Strathcona hotel, Shewanigan Lake. Special attention given to hunters.

The police believe that the influx of people here for the fair is responsible for several robberies that have taken place this week.

In the police court yesterday afternoon the thirteen Chinese who were arrested Sunday night last and charged with gambling, were found guilty, and fined \$24 or in default one month's imprisonment, each.

A prosecution has been laid against a labor agent named Mar Hass, who is charged with obtaining \$129 by fraud from W. H. Wright.

The preacher at the Oak Bay church of England services, which are held in the municipal buildings at 4 o'clock each Sunday afternoon, will be tomorrow Rev. Leonard Dawson, principal of the Indian industrial school at Lytton.

Spent your shooting vacation at the Strathcona hotel, Shewanigan Lake, and get results.

CIVIC METHODS ARE CRITICIZED

Contractors Will Present Protest at the Next Meeting of City Council

Civic methods of doing business were criticized last night in a letter to the city council from Thomas Steadham, formerly of the Pacific Coast Construction Company.

It may be recalled that Mr. Steadham, who now complains against the methods of the city in this respect, was the lowest tenderer for the construction of the Ross Bay sea wall.

He further points out in his letter to the council that the Westholme Lumber Company is at present supplying material to the Pacific Coast Construction Company, a circumstance which he regards as further complicating the issue.

It has been reported to the council that the Gamewell Fire Alarm system is now being installed in two of the city schools, namely Bank Street school and Victoria West.

City workmen will have no excuse on this occasion for failing to register their votes for reciprocity.

The motion of Mayor Morley in regard to the inauguration of a fund for the widows and fatherless of the city was unanimously approved.

WEATHER BULLETIN. Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 8-5 a. m.—The barometric pressure remains low over the Pacific states and western British Columbia and high over the prairie provinces and the Mississippi valley states.

For 36 hours ending 5 p. m. Sunday. Victoria and vicinity—Light to moderate winds, unsettled, with showers.

Victoria—Barometer, 29.83; temperature, 55; minimum, 55; wind, 4 miles W.; rain, 2; weather, rain.

Victoria—Barometer, 29.88; temperature, 55; minimum, 55; wind, 4 miles W.; weather, cloudy.

Victoria Daily Weather. Observations taken 5 a. m., noon and 5 p. m., Friday:

Highest temperature, 56; lowest, 52; average, 53; rain, 15 inch. General state of weather, showery.

MENTAL SCIENCE LECTURE. It is Easier to Succeed Than it is to Fail.

Prof. M. F. Knox opened his series of free educational lectures at hall 15, Hibben building, 1122 Government street, last night.

"How to Overcome Poverty and Accumulate Wealth." He said in part: "In this great wealth-producing country man should not know or face poverty. Wealth is inexhaustible; money never is used and never will be, but it is the tool that will furnish us with the comforts of life."

He declared that all poverty was produced by the way people think; that millions of people think the opposite of what they should.

stone's great wealth was in his ability to express himself as a statesman. Thomas Edison's wealth is in his ability to produce inventions.

What Does Home Mean To You? Does it mean merely a place to live—a shelter from the elements? Or is it so designed and built as to impress you and your family with a sense of comfort, of serenity and contentment that cannot be secured elsewhere on earth? A real home should do this. But it must be properly designed. It must be beautiful. It must be conveniently arranged. As John Ruskin said: "Our dwelling houses must be built to last and built to be loved, rich and full of pleasures, as may be, without and within."

## BOTH BOXMEN WERE PUZZLE TO BATTERS

### Pippins Win Close Game Yesterday—Feature Was Run Scored by Portland

Portland, Sept. 8.—With Thorsen and Eastley holding the batters safe all the way, the only other feature yesterday was Portland's lone score. With Messner on third in the fifth inning he was hit by a ball pitched by Pippins, and he scored on a single by Thorsen. Pippins pitched a few seconds before Collins was touched for the third out. The score:

Victoria		Portland				
A	R	H	P	O	A	E
Millon, c. f.	4	0	2	0	0	0
Brennan, s. s.	4	0	2	2	4	0
Goodman, 3 b.	4	0	1	2	1	0
Keller, 2 b.	3	0	1	2	1	0
Kennedy, 1 f.	3	0	0	0	0	0

Eastley, p.	3	0	0	0	0	0
Totals	28	1	3	27	7	0

Score by innings.

Struck out by Eastley, 11; by Thorsen, 8. Sacrifice hit—Messner. Stolen bases—Messner, Brennan. Passed ball—Grindle. Time—1:25. Umpire—Rankin.

## INDIANS LOST AGAIN

Spokane, Sept. 8.—Schwenk pitched strong ball for Spokane for six innings yesterday, then weakened, and Vancouver hammered out an easy victory, 6 to 4. The count on the score is now three in four games for Vancouver. Vancouver played a loose game in the field, but pulled out of tight holes. Gervais was generally effective. Brinker got four hits, including a double. The score:

Vancouver		Portland				
A	R	H	P	O	A	E
Brinker, c. f.	4	1	4	2	0	0
Bennett, 2 b.	2	1	0	2	3	3

## A FAST TRACK FOR YESTERDAY'S RACES

### Early Morning Showers Made Going Very Good—Sergeant Beckton's Feat

Yesterday's racing in connection with the exhibition was first class, the track being faster than on previous days owing to the early morning showers and every race providing excitement in plenty.

The headliner in the harness events was the 2:15 pace, in which Alvis, driven by his owner R. G. Willis, won the \$1,000 purse in three straight heats. Mounted Police Sergeant Beckton worked his way into the limelight and was accorded a generous round of applause when just previous to the third heat in this race, Road Bird, after unseating his driver, Reeder, by running into a passing sulky, dashed down the track at top speed with the policeman after it. Catching it very cleverly after a quarter-mile run, he brought it back to the post. The driver was not hurt.

Dixie H. Ross & Co.'s Zulu finished first in the pony race, but was displaced in favor of Jack J. owing to the fact that Zulu was over 15 hands high.

The results were: First race, 2:35 trot and 2:40 pace, 1 mile heats; best three in five—Purse \$400—1, Tom S.; time 2:22; 2, Explosion; 3, Reginald.

Second race, 2:15 pace, 1 mile heats, best 3 in 5. Purse \$1,000—1, Alvis, time 2:18; 2, Road Bird; 3, Seattle Spirit.

Third race, running, five-eighths of a mile. Purse \$100. For horses that ran and had not been first or second at the meeting—1, Sempronio, time 1:04; 2, Creston Boy; 3, Yellow Foot.

Fourth race, running. Purse \$150. Weight for age. Three years and up. Winners at this meeting to carry ten pounds extra; beaten horses 5 lbs. Seven-eighths of a mile—1, Alder Gulch, time 1:24; 2, Halworth; 3, Lord Rosington.

Fifth race, running race, half mile for ponies—1, Jack J., time 59 1/2; 2, Zulu; 3, Indian Maid.

## ABOUT BASEBALL

Tracy Baker, former first baseman, University of Washington, has been turned over to Bob Brown, of the Beavers, for the balance of the season. J. I. Taylor, of the Boston Americans, has wired Brown that Baker has been shipped to be placed in the Northwest League as Brown sees fit for the balance of the season, to be turned back to Boston next spring.

The National baseball commission has decided that player Ernest Willey, claimed by the St. Louis Americans, should go to the Waco, Tex., club, but St. Louis may get the player by the usual renting process. This commission announced officially that the commission in the training of the first time announced of a club which purchased a player who dies before reporting. It follows: "It is agreed in case of death or permanent incapacity of a player prior to his reporting to the party of the second part, and giving it actual service in the training or championship season, this agreement shall be null and void, and the party of the first part binds itself to forthwith return the party of the second part all or any of the consideration received for him, whether it be in money or the release of one or more players, and to absolve the party of the second part from all obligations for payments that have not matured."

Jimmy Harrison, Pirate recruit from the Vancouver Beavers, sent to Springfield, O., to take the place of First Baseman Keene, was so badly injured going into first base, two weeks ago, that he will be out of the game the remainder of the season. Harrison regards August 29 as his hoodoo. On that date, in 1908, he broke his left leg sliding into a base. On August 20, 1909, he had his right knee dislocated in the same manner. Last year on the above date he had his hand split open, and this year he had his right ankle badly sprained. Harrison was grabbed from the dugout by Pittsburgh before he was ripe. Brown told Barney Dreyfuss he was taking him too early in the game, but Barney took his chance and Harrison was not good enough to displace any of the regulars.

A protest was filed with President Lynch of the National League, by the Cincinnati club over Chicago's victory yesterday. This is the word that went the round, being based upon the play made by Esmond when he attempted to score from third in the sixth inning, when Evers was being put out of the game and while Chicago players were arguing with Umpire O'Day after two Cincinnati players had counted on Richter's error. Cincinnati contends that as there was only eight men on the field and as two balls were on the diamond the umpire should have called "time."

The standing of the Northwestern League team is:

	W.	L.	Pct.
Vancouver	88	55	.615
Spokane	81	64	.568
Seattle	78	65	.545
Tacoma	77	69	.528
Portland	73	67	.521
Victoria	34	111	.234

Visit Lucas and Sweeney at the Strathcona, Shawnigan Lake, when on your shooting vacation this year.

## SPORT NOTES

Eddie Smith, the well known sporting writer and fight referee, died shortly after 7 o'clock at Oakland, Cal., yesterday morning. He had been ill of brain trouble for several weeks. Smith was 28 years old and married. At one time he was boxer in the lightweight class and was champion long distance bicycle rider of the Pacific Coast. The last important fight that he refereed was the Wolgast-Nelson battle at Point Richmond. He was official referee of the Pacific Athletic Club, of Los Angeles.

On Wednesday, September 13, the St. Leger will be run. While the Derby is only open to colts and the Oaks is a ladies' race, in the St. Leger the best three-year-olds of the year, colts and fillies, meet and the winner of the Doncaster St. Leger is nearly always the best horse of his year. Owing to the breakdown of Sunstar, winner of the 2000 guineas and the Derby, Lord Derby's King William is a firm even money favorite, and barring accidents his winning seems almost a certainty.

It is claimed by some sporting writers that Manager Querie is figuring on putting it up to the National Lacrosse Union to hand the championship to the Tecumsehs, or in event of the league refusing he threatens to come west and leave the Eastern League in a tangle. However, so many conflicting reports have been sent from the scene of the happening, the Tecumsehs have gained this much at all events, that a meeting will be held at Montreal on Monday night to discuss the matter.

The Canadian track and field championships will be held at Montreal on September 23. Every province in the Dominion with the possible exception of British Columbia, will be represented at the meet. Winnipeg and Edmonton will send strong teams. The B. C. A. A. U. should make an effort to send one or two athletes from this province. Beasley of Victoria and Dunc-Gillis of Vancouver would undoubtedly make a fine showing if given the chance.

Frederick Welsh, Johnny Kilbane and Frankie Conley, will figure as referees to-day in the 45-rounds of milling scheduled in the Admission Day boxing programme at Vernon, Cal. Boer Unholz, once a cogitator with Battling Nelson, insists that he has "come back" and will try to prove it in a fifteen-round bout with the trial horse, "Kid" Dalton. Gus Anderson, who was never defeated in the eleven battles he has fought, will go against "Kid" Harrison of San Francisco. Curley O'Connell and Frank Sullivan will appear in the fifteen-round opening bout. Welsh will referee the Unholz-Dalton wind-up, and Kilbane-Conley will choose between the other two.

It was the news in racing circles at New York yesterday that James H. Keene's "Ballot," a son of Viceroy, and one of the leading horses in training there, two and a half years ago, has been sold to the German imperial stud. The price is said to be something over \$50,000.

Manager Querie, of the Tecumsehs, says that if the president's decision is one of the directors' meeting, the Tecumsehs will ask the members of the executive to release them from playing any more this season in the N. L. U., and will try to arrange exhibition games with the Minto cup holders on the 33rd and 30th.

## TO PLAY FOR MANN CUP

V. A. C. Lacrosse Team, Pacific Coast Champions, Leave for East September 20.

Vancouver, Sept. 9.—The Vancouver Athletic Club lacrosse team, senior amateur champions of the Pacific coast, will play for the Mann cup, emblematic of the Canadian amateur championship, September 30 and October 7. In a telegram to James Findlay, president of the local team, J. Ross Robertson of Toronto, one of the trustees, says that the challenge has been accepted and that the trustees will require holders of the cup to defend it against your team on September 30 and October 7. Two games will be played, total number of goals to count.

Mr. Robertson does not say which team will meet the challengers, the eastern amateur championship has been decided as yet. However, with the dates arranged and everything settled the Vancouver boys will leave here about September 20 for the east, and they are confident that they will return with the trophy.

## WILL NOT LEAVE JUST NOW

Tecumsehs Will Run Risk of Defaulting Championship Game.

Toronto, Sept. 9.—It is not at all likely that the Tecumsehs will go west at this time. They have a feeling that they are morally the champions of the N. L. U., but that does not provide any loophole of escape from their championship fixtures. Their supporters agree that if they were to go they would run the risk of defaulting a championship game. If they defaulted they would be automatically out of the N. L. U. However, the Tecumsehs hope to upset President Murphy's decision at the meeting of the directors, which they say is in conjunction with the Tecumsehs they will call. The Tecumsehs say the fair thing for the president to have done would have been to order the teams to play the four and a half minutes remaining to the game.

## IMPERSONATED RONAN

Man Joe Bayley Knocked Out Not Vancouver Amateur.

Somebody masquerading under the name of Walter Ronan of Vancouver, went to Nanaimo last week and boxed Joe Bayley, the local boxer, five rounds, being knocked out. The real Walter Ronan, who is a member of the Vancouver Athletic Club, was in Vancouver at the time, and he is put out of the game. The impersonator over the occurrence, Ronan is an amateur boxer of the Vancouver Athletic Club, and he would like to call the attention of the sporting public to the fact that he is still a good amateur.

## LAST SERIES HERE

Victoria Returns With Spokane on Monday—Team Now Going Strong.

Next week will furnish off Northwestern League baseball in Victoria for this season. Victoria is coming back with Spokane, and the best series seen here since the beginning of the season should be the bill.

This is not empty talk, as anyone who has followed the games during this week knows. The Islanders have been playing A1 ball in all departments and so frightened are some of the managers in the league who have figured on an easy time with the locals in the finals of the struggle for the pennant, that their plans are going to be badly upset that they have had "Ducky" Holmes, the real cause of the metamorphosis, put out of the game. They imply that "Ducky" jumped his contract with the Mobile club in the Southern League, and was not released.

However, the peppery little manager's influence is evidently telepathic, for the Islanders have been going just as strong with him out of the game as before, so there is no cause for worry just at present.

When the Islanders land here on Monday there will be, as was remarked a few days ago, several new faces in the crowd, the most notorious of which is perhaps that of Kennedy, the erstwhile Tiger.

## AUSTRALIAN CHAMPION

Jack Lester, of Washington, Defeats Bill Lang in 20 Rounds.

Sydney, N. S. W., Sept. 5.—Jack Lester, of Cle Elum, Wash., to-day defeated Bill Lang, the Australian heavyweight, for the championship of Australia. The battle went the full twenty rounds and Lester was awarded the decision on points.

Fortunately a man doesn't have to pay for the advice his wife hands him.

## Harrison Hot Springs, B.C.

## The "Ross Rifle" Action Is the Speediest Known

The wonderful accuracy of the Ross Barrels is not the only reason why sportsmen who can shoot straight should give preference to this arm.

Speed in unloading, loading, shooting, etc., is an equally important factor, and the Ross, with its straight pull, is not only unsurpassed in speed of fire, but its magazine loads more quickly and easily than other makes.

A trial will quickly convince.

Ross Sporting Rifles are sold at from \$25.00 and upwards. Leading dealers handle them. Write for free illustrated Catalogue.

### WIRELESS RECORD MADE BY ESTEVAN

SPEAKS CANADA MARU 1,700 MILES AT SEA

Also Communicates With Awa Maru 1,400 Miles Away and Marama 622

Vancouver Island wireless stations have on several occasions during the past few days, broken records for long distance, but last night every former record was shattered to pieces when the operator at Estevan got into communication with the Awa Maru, 1,700 miles from the west coast station. The Maru left this port last Saturday for Yokohama and was out from Victoria nearly seven days when spoken by Estevan.

The message received by the island station was not relayed by any other vessel and as a result Estevan may lay claim to the record for long distance talking on the Pacific. Some time ago it was believed that the Astoria station had won the laurels, as she spoke the Minnesota 2,000 miles at sea, but on the arrival of the vessel it was discovered that the message had been twice relayed, once by the Nippon Yusen Kaisha liner Sado Maru, and the second time by the Pacific Coast steamship Umattila.

Last night the air currents must have been exceptionally good for long distance talking, as the Estevan station was in communication with another vessel, which was 1,400 miles out. The Nippon Yusen liner Awa Maru, due here on Wednesday next from the Orient at 10 o'clock this morning, gave her position as lat. 49 29 north and long. 162 03 west. Although not covering an extra long distance the operator at Estevan also entered into communication last night with the Canadian-Australian liner Marama, which left here on Wednesday. She was 522 miles from Estevan when picked up.

At the Estevan station is installed one of the largest and most powerful wireless instruments on the Pacific coast and the usefulness of it has on more than one occasion been shown. It is of great assistance to steamships and to the local agents of Oriental lines, who are able to figure out from the positions reported just when the ship will be at the dock in Victoria.

Undoubtedly the Awa Maru will be in port on Wednesday afternoon from Yokohama. She is bringing across the Pacific a large passenger list as well as several thousand tons of general cargo, together with a valuable shipment of silk.

About 1 o'clock this afternoon the steamship Sado Maru, Capt. Richards, of the same line, arrived at the outer dock from the Sound, outward bound for the Orient. She spent about two hours here taking on a number of passengers and a little freight. The largest part of her cargo is flour and wheat, which is consigned to Chinese ports. She also has on board a great deal of machinery, lumber and fish.

Nippon Yusen—Sailed: Marama, New York.

## RECORD CARGO OF HEMP FROM EAST PLANNING TO FISH ON LARGER SCALE

### ORTERIC ARRIVES HERE AFTER NASTY PASSAGE

#### Bank Liner Makes Initial Trip With Monster Cargo—Eight First Class

Coming across the Pacific with the largest shipment of hemp that has ever left Manila and with every inch of space in her holds taken, the big liner Orteric, Capt. Findlay, reached the outer wharf this morning after a run of 14 days and 10 hours from Yokohama. This was the first trip the Orteric has made in the trans-Pacific service, and she made her initial call here. The steamship is a new liner, having just been launched this year, and is a sister ship to the Luceric, which was here about six months ago.

About 16,000 tons measure of freight was crammed beneath the hatches of the Orteric, and is the largest cargo that has been brought from the Orient on a Bank liner. The reason for the big steamship having such a monster cargo is due to the fact that she is operating partly under charter to the P. R. and is bringing some of the freight which would have been brought by the Empress of China, now on the rocks near Yokohama.

Twenty-four thousand bales of hemp, consigned to Seattle, is the largest item on the freight list of the Orteric. Some time ago the Sveric, of the same line, arrived here with a shipment of 2,000 bales, which was considered as a record; but with the arrival of the new liner a new mark has been set, which is liable to stand for some time. A quarter of a million dollars' worth of rice, together with large shipments of tea, were also in the holds of the steamship, and her whole cargo was valued at nearly a million dollars.

Officers of the Orteric state that the steamship had a very dirty passage from Yokohama. She encountered heavy gales and tremendous seas, and at times ran into dense fogs. Last Sunday the liner met a strong southeast gale, and was justly about by the big seas in a heavy manner. The water surged on her decks, and for two days she was battered about in this manner. While the weather during the remainder of the passage was not so fierce, the steamship was buffeted about badly at times. Last night when nearing the coast of Vancouver Island the Orteric ran into a dense fog and it became necessary to have her speed reduced. She crept up the straits through the mist under a slow bell and reached William Head at 9 o'clock this morning.

The Orteric, which is equipped with first class accommodations like her sister ship the Luceric, brought across eight saloon passengers. They included: E. R. Bennett, a merchant at Manila; Mrs. Atwood, Hongkong, bound for Vancouver; Abdul Noah, a silk merchant of New York, who is returning from a trip to Hongkong; J. Houston, Manila, who is on his way to Portland, Ore.; C. F. Maxner, Chicago, a vacuum tube expert, who made the round trip on the Orteric in the interests of a Chicago company; Serg. E. A. McCarty, Manila, who has been serving with the American army there, and Mr. and Mrs. G. Serpage, of Yokohama, who are going to Winnipeg.

While the Orteric was in the Orient making the run from Manila to Hongkong she suffered a bad buffetting by the swell from the heavy typhoons which raged in that part a short time ago. She did not get in amongst them, but was tossed about by the tremendous seas which followed in their wake. A steamship faster than the Orteric left Manila a day ahead of the liner, but the latter reached the British port two days ahead of the other. The vessel had got into the typhoon and was badly damaged by the fierce seas. After discharging 300 tons of cargo for this port the Orteric proceeded to Vancouver about 3 o'clock this afternoon. The local cargo consisted of rice, tea, sugar, curios, furniture, soy, and preserved vegetables.

### MARINE NOTES

The Weir steamer Sveric, in the Orient service, is reported as leaving Hongkong Thursday for Victoria.

The British steamer Strathblane, from Java, arrived on the Sound Thursday and proceeded to Vancouver to discharge cargo.

Robert W. Barclay has sold his interest in the firm of L. Benjamin & Co. to John Degen. The change became effective yesterday.

The Matson Navigation Company's steamer Hyades left the Sound Thursday for Honolulu. The Hyades loaded a part of her outward cargo at Tacoma.

After discharging 550 tons of copper ore at the Tacoma smelter, the steamer Alameda left port early yesterday morning for Seattle. She will leave the Sound to-night for the north.

Foreign cable advices received yesterday report the British steamship Belcheron of the Blue Funnel fleet arriving at Hongkong prior to September 2 from Liverpool for Tacoma.

With a cargo of lumber from Mukilteo the schooner Robert Searies is reported arriving at Honolulu September 6 after a smart passage of 18 days from the Sound. The schooner Borealis is reported sailing from Hilo September 2 for Puget Sound.

The schooner William Bowden arrived at Coleta Colosa September 1, 34 days out from the Columbia river, and reports that Capt. R. Peterson, her master, had died at sea June 25. No further particulars. The schooner had on board a cargo of 1,251,268 feet of lumber.

### Americans to Double Salmon Fleet—Fewer Traps but More Seines Next Year

Fort Townsend, Wash., Sept. 9.—The supply of fish at the local canneries and in fact at all canneries on the Sound during the past day or two has very materially diminished, which indicates that the big run of fish is at an end until later in the fall. Plants will not be able to run full time from now on.

The receipt of fish at the local canneries yesterday was about 10,000. The run, however, always shortens up for a period before the late fall run, so the operators are not in the least disappointed. The present season has demonstrated that the salmon fisheries are moving seaward and that the present system of operations will soon be revolutionized and that cannerymen are having to change their system to keep pace with the times and new methods.

The future of the salmon fisheries as indicated by the operations this year, and plans for 1912 and 1913 promise some surprising changes in methods and a gradual change of base oceanward. By 1913 the fleet of purse seiners will probably be doubled. Larger and better craft will be provided and the salmon will be met upon their entrance into the straits. Fewer traps will be put in and the canners will depend more and more upon the purse seines for their supply of fish.

This will necessitate the location of the canneries at some point nearer the supply of fish. Many salmon are taken at the entrance to the straits that will not stand shipping. The purse seiners have unmistakably demonstrated their effectiveness this season. The canneries will be placed as near the entrance to the straits as they can get. It is not unlikely that 1913 may

bring the floating cannery, anchored close to the supply of fish.

TIDE TABLE.

The time used in Pacific Standard, for the 12th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height 20 is feet and tenths of a foot above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

POLLS CLOSE AT 5 P.M.

ONTARIO TORIES  
LINE UP FOR PACT  
Representative Men of Every  
Vocation in Life Break  
Party Lines

With great glee the Tory papers make freak features of every case of Liberals allegedly turning down their party affiliations and announcing themselves as opposed to reciprocity. Often these men have been requested by their former Liberal organizations to resign, and these always give reciprocity as their reason for going over to the Tories. Locally we have some instances of this kind. Some say they have "business" reasons for the change. None of these reasons apply to the list of fourteen corporations, heads and solicitors so frequently referred to led by such men as Sir Edmund Walker, Z. A. Lash, et al. These men unquestionably put "The Interests" first in forming their new party alliance. They have naturally chosen the party which protects "The Interests" of moneyed corporations.

Conservatives Who Believe in Reciprocity.

- LEONARD HANKINSON, of Grove End, says he has been a Conservative all his life, but that he cannot understand the inconsistent stand of his party at the present time, and will vote for reciprocity.
- HARRY GREENSTED, of South Dorchester, says that reciprocity is full of benefits for the farmer, and that the cities will flourish. He says reciprocity in natural products is a conservative policy, and that as he is a Conservative, he will vote for it.
- JOHN DOUGLAS, of South Dorchester, a Conservative, says he is ready to give reciprocity a trial.
- JOHN GILBERT, of Yarmouth, a Conservative, is ready to give reciprocity a trial.
- JAMES CULBERT, of Creve, says he never voted for the Liberal Party in his life, but knows reciprocity is a Conservative policy. He will vote for reciprocity, and knows many other conservative farmers who intend to do the same.
- WILLIAM FRASER, of Burford Township, Brant county, a former Conservative candidate, is supporting reciprocity.
- MR. LEWIS, of Burford Township, Brant county, a Conservative, is supporting reciprocity.
- A. G. BEDFORD, Conservative horseman, west Kent, has written the Liberal candidate that he will support him because reciprocity will benefit horsemen and farmers generally.
- ALBERT W. M. M., senior partner of A. S. Smith & Co., Clark's Harbour, Shelburne Co., N.S., one of the largest fish dealers on the coast. Says he is a strong Tory, always has been, and supposes he always will be, but he strongly supports Mr. Fielding and Reciprocity for the great benefit of the fishing industry.
- THOMAS FORD, a Cooksville fruit-grower, writes to The Star that he has been a Conservative all his life, but he is disgusted with his leaders because they will not accept the "gift" Canada has ever had offered.
- F. B. LOVERKIN, former president of the Conservative Association of Durham, is campaigning for T. A. Kelly, the Liberal candidate.
- JAMES ANDERSON, Conservative, of Prince Edward County, is campaigning for Dr. Morley Currie, the Liberal candidate.
- WILLIAM COTTELL, and his five sons, of Sundridge, who "never voted for a Liberal government," are throwing all of their influence for reciprocity.
- JAMES JOHNSON, president of the Fruit Growers' Association of Norfolk County, a Conservative, is supporting reciprocity.
- N. S. NESBITT, a Toronto Conservative, is out strongly in favor of reciprocity.
- THOMAS HAMILLE, a Conservative, of South Simcoe, has consented to become a reciprocity candidate in opposition to Mr. Houghton Lennox, nominee of the Conservative party.
- H. J. DAVIS, cattle breeder and judge of live stock, of Ingersoll, says that while it is hard to turn one's back on his party, he must support reciprocity and principle.
- LESLIE McMANN, Thorold, a Conservative, favors reciprocity and may run as a candidate in Welland County.
- PETER LUND, Wardner, B.C., a supporter of the Conservative party in British Columbia, advocates reciprocity because it will take the taxes off the necessities of life, such as food, fuel, and shelter.
- JOHN FRITCHARD, who never cast a Grit vote in his life, is working for A. M. Martin and reciprocity in North Wellington.
- WILLIAM McDERMOTT, ex-reeve of West Garafraxie township, a life-long Conservative, is supporting A. M. Martin and reciprocity in North Wellington.
- ALFRED HUTCHINSON, of Arthur township, who has voted both ways, but usually Conservative, and is president of the East Wellington Farmers' Institute, is out for reciprocity.
- CHESTER NICHOLSON, a Conservative, graduate of the Ontario Agricultural College and ex-secretary of the East Wellington Farmers' Institute, supports reciprocity.

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophyllactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair live and glossy, and the scalp free from dandruff and irritation. While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 7M, Boston, U. S. A., for a liberal sample cake, together with a thirty-two page book on the skin and hair.

- GEORGE M. BALLACHY, a Conservative farmer of West Brantford township, declares himself in favor of reciprocity.
- L. H. EDMONDS, Blenheim, Ontario, known all over the country as a Conservative, writes to the papers that he is not Conservative enough to miss the opportunity to open up an unlimited market for horse dealers and farmers. He thinks that every farmer who has his own interests at heart, will drop politics for this time and vote for reciprocity.
- RICHARD JOHNSON, a Conservative of Norfolk County, will vote for reciprocity, as will also his sons and other relatives.
- JOHN HERRON, Conservative M.P. for Macleod in the last parliament, says he will support reciprocity, believing that its advantages will far outweigh any possible disadvantages. He "can find no one in his constituency who thinks otherwise."
- C. E. HAMILTON, a Conservative of Weyburn, Saskatchewan, predicts that all the candidates who oppose reciprocity in Saskatchewan will lose their deposits.
- EX-MAYOR BRICHER, a Conservative of Berlin, is supporting Macleod, King and reciprocity.
- JOSEPH ATKINSON, Conservative, of Tuckersmith township, South Huron, says he thinks reciprocity will benefit everything the farmer has to sell.
- JOSEPH LAYTON, another Conservative of Tuckersmith township, says the agreement will give him a better market for cattle and hogs.
- J. J. IRVINE, of Leamington, who is described as not merely a Conservative, but a real Tory, says the reciprocity agreement is just life.
- S. O. TAYLOR, member of the Durham Conservative Association, says he will find it awfully hard to go to the polls and mark his ballot for a Grit, but he is convinced that the tariff agreement is a benefit to rural Canada, and he is prepared to stand by his opinion.
- GEORGE ANDERSON, Mountain View, Prince Edward County, a former Conservative M.P., says he is proud to say that he will not stick to the Conservative party when such a course is folly. He estimates that not one farmer in twenty in his neighborhood is opposed to the agreement.
- WILLIAM BARKER, a prominent Conservative of Prince Edward County, says he is certainly in favor of reciprocity.
- AUSTIN HAZZARD, of Wallaceburg, described as not merely a Conservative, but a real Tory, says this reciprocity business looks all right to him.
- WILLIAM TROTTER, Conservative, Chatham Township, favors reciprocity as a farmer.
- FRANK SHAW, Conservative, of East Branch, favors reciprocity as a farmer.
- JAMES McCORMACK, Conservative, deputy reeve of Harwick township, says the only trouble with the agreement is that it does not go far enough.
- EDWARD HEA, of Raleigh, says he is a Conservative, but wholly in favor of reciprocity.
- J. H. DOWNEY, Conservative mayor of Whitby, expresses himself as strongly in favor of the agreement.
- DAVID GALBRAITH, Whitby, a Conservative, favors reciprocity.
- MR. SYPHER, a young Conservative, of Durham-Oxford county, is struggling for the Liberal candidate and reciprocity, basing his stand on market quotations compiled by himself during the past five years.
- MR. ARMSTRONG, who describes himself as a John A. Macdonald Tory, is stumping for W. A. Buchanan, the Liberal candidate in Medicine Hat, and reciprocity.
- JOHN A. CAMERON, manager Kent Farmers' Produce Company, Township of South Hurwick, says he has always been a Conservative, is now, and will continue to be one, but he doesn't care who knows what this time he will vote for McCoig and reciprocity, thus, as he says, voting for the benefit of himself and all farmers.
- One hundred thousand Tories who will cast a "silent" vote.
- When a man begins to sympathize with himself it's a sign he has outlived his usefulness.
- "How it must hurt a man when he is able to see his wife in public to have her look as if she wasn't used to it."

WHO FORGED THAT TELEGRAM?

To the Editor—Unless the Colonist without further shilly-shallying (by which nobody is rounded up) shall deny complicity, at least, in the crime referred to by Mr. Templeman when he asked the pertinent question, "Who forged that telegram?" I will request the Times to accept his (Colonist's) failure to deny it as evidence that he cannot deny it. And to assume that if he could clear his shirt from this indefensible crime, he would hasten to do so; and I believe the public will sustain the Times in so doing.

WAIF II.

BUSINESS CONDITION IN STATES.

To the Editor: A few days ago, while visiting your beautiful city, I read in the morning paper one of the most bare-faced misrepresentations of industrial conditions in the United States that has ever come to my notice. The title of the writer apparently was to show that the people south of the line were the most miserable, half-starved, hopeless mass of humanity gathered together on the face of the earth, with whom it would be dangerous to do business. It is unnecessary, of course, for me to bring such silly trash to the notice of the Colonist. I have some knowledge of the intelligence of the Canadian people. I remember well the old battles on the tariff in the eastern provinces when the Conservatives, day in and day out, proclaimed the virtues of protection and damned what they described as the pernicious doctrine of free trade. Now, apparently, they seem to regard protection as a curse to the United States, but, strangely enough, if I read your papers aright, they want to transfer the system to Canada in its most advanced form. One would imagine from reading such arrant nonsense that the whole laboring population of the States was one Hugh Coxey's army, with starvation staring them in the face. What utter rot! The current report of the Bureau of Commerce at Washington shows that the country's trade is most prosperous, and how could this be possible if its people were verging on pauperdom? Plainly, the politicians

who inspire such rubbish as the sample I saw in your morning paper are engaged in the very ancient game of trying to strengthen themselves with the workingmen, and my experience on both sides of the line has shown me that it is only during an election campaign that they manifest any solicitude in that direction. I must protest against this strangely unfriendly attitude which is necessary to stir a neighboring people in order to score a doubtful political point. Certainly it cannot prevail among organized labor whose union affiliations for years have been international in character, a condition which has made labor unionism so effective a force in the individual life of both countries.

RICHARD CARROLL  
Spokane, Sept. 5.

A MISLEADING REPORT.

To the Editor: In today's Colonist there is a report from which it would appear that, after evidence laid before Magistrate Jay, I was fined the minimum penalty of \$50 under the Bush Fires Act, for entering, like a tramp, someone's land in Esquimalt and burning about two acres after a storm, to the great danger of the community.

The facts are these: The land was my own; I was not within five miles of it when the fires were started; my Chinaman, who was clearing it, set about burning some tree stumps, with my concurrence, in the belief, which I shared with him, that he was free under the act to do so on and after the first September, whereas under the act it can only be done during September under a permit. There was no evidence laid at all, both Mr. Brandon prosecuting for the crown, and the magistrate, accepting my own statement showing how I had fallen into error in the matter.

Mr. Brandon stated that in the circumstances he only asked for the minimum penalty of \$50 without expenses, and the magistrate pronounced sentence accordingly after a statement by myself that I considered the prosecution to have acted very handsomely in the matter and to the effect that I thought I was entitled to pay for my mistake to that extent.

As to the great danger to the community Mr. Bhatnagar, who discharged the unpleasant duty of prosecuting me with all courtesy, at once gave me a permit to continue the work after I had paid the fine, which he certainly would not have done had he considered that it entailed risk of loss to the hedges.

Remember THIS!  
Prices Go Up in Our Fort St. Subdivision  
September 15

What does this mean to you? It means that you have only seven more days to secure some of the best investment lots for sale in this city. At present prices, these lots are about the same as near-by acreage, giving present buyers every chance for a profitable re-sale in the near future. Not only will values go up Sept. 15th, but the improvements on the streets, now under way and the closeness of this subdivision to the car line, will tend to enhance values quickly in the future. You will make good on these lots.

LOOKING TOWARDS FORT STREET  
Our Fort Street Subdivision  
AND ITS ADVANTAGES

This subdivision is situated on Fort Street at Foul Bay Road. Trent street running through the property, is being graded and Foul Bay Road is nearing completion. This places every lot on a graded street. Water will be piped as required by home builders. All lots are large, 50x140, to a 20 ft. lane and are free from rock or stumps, with soil very suitable for gardens. They make fine homesites for homes of moderate dimensions, and at the same time are splendid investments.

Stallion, any age—1, Mr. Thoburn; 2, Mr. McVernard.  
Special prize donated by the British Columbia Stock Breeders' Association for best two animals of light breed, mares or geldings, registered or unregistered, three years or under, bred in British Columbia, and exhibited by owner—1, Mr. Wilkinson; 2, Mr. Mead.  
The B. C. Challenge Cup for best exhibit of British Columbia bred horses; all to be owned by exhibitor; quality to count 75 per cent., quantity 25 per cent.—Estate of L. Gitchin.

### CATTLE

**Shorthorns.**  
Bull, three years or over—1, Watson Clark.  
Champion bull—Diploma, Watson Clark.  
**Aberdeen Angus.**  
Bull calf, junior, calved on or after January 1, 1911—1 and 2, H. S. Logan.  
Heifer, yearling—1 and 2, H. S. Logan.  
**Holsteins.**  
Bull, three years or over—1, H. Bonsall; 2, Finnelly & Son.  
Bull, two years—1, Bishop & Clark.  
Bull, one year—1, Griffith R. Hughes.  
Bull calf, senior—1, Finnelly & Son; 2, H. Bonsall.  
Junior bull calf—1, H. Bonsall; 2, Finnelly & Son.  
Champion bull, any age—Diploma and \$25 added by the Canadian Holstein Friesian Society, H. Bonsall.  
Cow, three years or over—1, 2 and 3, H. Bonsall.  
Heifer, two years—1, Griffith R. Hughes.  
Senior heifer, yearling—1 and 2, H. Bonsall.  
Junior heifer, yearling—1, 2 and 3, H. Bonsall.  
Heifer calf, senior—1 and 2, H. Bonsall; 3, Griffith R. Hughes.

Champion female, any age—Diploma and \$25 added by the Canadian Holstein Friesian Society, H. Bonsall.  
Herd, bull and four females, any age, owned by one exhibitor—1, \$25 and \$25 added by the Canadian Holstein Friesian Society, H. Bonsall.  
Herd, bull and three females, all under two years—1 and 2, H. Bonsall.  
Herd, three animals, any age or sex, the get of one bull—1, 2 and 3, H. Bonsall.  
Two animals, progeny of one cow—1, 2 and 3, H. Bonsall.  
**Ayrshires.**  
Bull, three years or over—1, Mr. Shuttleworth.  
Bull, one year—1 and 2, Mr. Shuttleworth.  
Junior bull calf—1, Mr. Shuttleworth.  
Champion bull, any age—Diploma, Mr. Shuttleworth.  
Cow, three years or over—1, 2 and 3, Mr. Shuttleworth.  
Heifer, two years—1 and 2, Mr. Shuttleworth.  
Senior heifer, yearling—1, Mr. Shuttleworth.  
Junior heifer, yearling—1, Mr. Shuttleworth.  
Heifer calf, senior—1, 2 and 3, Mr. Shuttleworth.  
Champion female, any age—Diploma, Mr. Shuttleworth.  
Herd, bull and four females, any age, owned by one exhibitor—1, Mr. Shuttleworth.  
Herd, bull and three females, all under two years of age—1, Mr. Shuttleworth.  
Herd, three animals, any age or sex, the get of one bull—1 and 2, Mr. Shuttleworth.  
**Jerseys.**  
Bull, three years or over—1, A. H. Menzies & Son.  
Bull, one year—1, Howard Fry; 2, H. A. Bevan.  
Senior bull calf—1, Messrs. Grimmer; 2, A. H. Menzies & Son; 3, Howard Fry.  
Junior bull calf—1, 2 and 3, A. H. Menzies & Son.  
Champion bull, any age—Diploma, Howard Fry.  
Cow, three years or over—1, A. H. Menzies & Son; 2, Messrs. Grimmer; 2, A. H. Menzies & Son; 3, H. W. Bevan.  
Heifer, two years—1, Howard Fry; 2 and 3, A. H. Menzies & Son.  
Senior heifer, yearling—1, Messrs. Grimmer; 2, A. H. Menzies & Son; 3, H. W. Bevan.  
Junior heifer, yearling—1, A. H. Menzies & Son; 2, Messrs. Grimmer.  
Heifer calf, senior—1, Messrs. Grimmer; 2, A. H. Menzies & Son; 3, Howard Fry.  
Heifer calf, junior—1, Messrs. Grimmer; 2, R. B. Edwards; 3, Messrs. Grimmer.  
Champion female, any age—Diploma, A. H. Menzies & Son.  
Herd, bull and four females, any age, owned by one exhibitor—1, A. H. Menzies & Son; 2, Messrs. Grimmer; 3, A. H. Menzies & Son.  
Herd, bull and three females, all under two years of age—1, Messrs. Grimmer; 2, A. H. Menzies & Son; 3, H. W. Bevan.  
Two animals, progeny of one cow—1, A. H. Menzies & Son; 2, Messrs. Grimmer; 3, A. H. Menzies & Son.  
**Guernseys.**  
Bull, three years or over—1, Bamford Bros.  
Senior bull calf—1, Bamford Bros.  
Champion bull, any age—Diploma, Bamford Bros.  
Cow, three years or over—1, 2 and 3, Bamford Bros.  
Heifer, two years—1, Bamford Bros.  
Senior heifer, yearling—1, Bamford Bros.  
Junior heifer, yearling—1, Bamford Bros.  
Heifer calf, senior—1, Bamford Bros.  
Heifer calf, junior—1 and 2, Bamford Bros.

## For Your Health's Sake

give the heating of your home the attention it deserves. Don't unthinkingly install a Furnace which supplies dry, parching air that irritates throats and lungs, causes colds, and keeps you paying out money to Doctors and Druggists.

The average hot-air Furnace does that because in warming the air it dries out the moisture and the waterpan is not big enough, neither is it correctly placed, to make good Nature's 60% to 70% of humidity.

# The Big Circle Waterpan of the Good Cheer Furnace

really does what it is supposed to do. By encircling the fire pot, and holding 4 to 6 gallons, it evaporates the water fast enough to keep up the natural humidity of the air. Thus instead of being dry and stuffy, the air of a "Good Cheer" heated house is as fresh and comfortable as the outdoor air of a day in June.

Investigate this question and convince yourself. Write for Booklet and full information—we'll gladly supply it.

# A GREAT COAL MINE

## To Be Opened on Graham Island Opposite Prince Rupert

### American-Canadian Coal Corporation Now Organizing, Head Office Vancouver, to Develop Great Coal Fields on Northern Portion of Graham Island

**Foreshore of Property an Archipelago of Coal—Islands of Coal Rising Out of the Sea—There are Five Seams in the Property which Outcrop for Half Mile on Water-front—Estimated Tonnage in Two Seams, Twenty-Seven Millions of Tons—Mine will be but a Short Ferry Run to Prince Rupert—Activity will Commence at Once—A Limited Issue of Shares at Ground Floor Price.**

The West is threatened with a coal famine again.

Hundreds of new towns in the Prairie provinces, which are removed many miles from any semblance of a forest, find themselves to-day without a single pound of coal. At this season of the year this predicament will not cause any great amount of worry, since it is not necessary to heat the homes; the only fire required is for cooking purposes.

But as the winter approaches buildings will be uninhabitable, and life impossible without good warm fires from either coal or wood.

The coal shortage is in a great measure accountable by the difficulties between the operators and the owners, but the fact must not be lost sight of that there has been an enormous demand for coal along the Pacific Coast this year, and the rapidity with which railway construction has been carried on, and new towns opened up, has in a great measure overtaxed the output of the few shipping coal mines in Western Canada.

What is a thousand tons of coal a day in Western Canada, to the multitude who must have fuel for domestic and manufacturing purposes.

Yet a thousand tons represents a highly profitable output for a mining corporation and represents sufficient shipment to pay a dividend of from \$1,000 to \$2,000 per day to the shareholders, or from \$300,000 to \$600,000 per annum, which on a \$1,000,000 capitalization would represent from 30 to 60 per cent dividend.

There is a feature of the coal situation which the reader must not overlook, and that is that a great many of the largest coal mines in the local field have contracted their output or the greater portion of the same for a number of years to come to American coal retailing firms; that the coal which is actually mined in British Columbia on being dumped into the bunkers is loaded into American boats and taken to the foreign market, so that the local supply is not increased by the operation of several of our greatest coal mines.

This condition of affairs points to a most active market in coal on the Pacific Coast this next year and for many years to come, since it can be readily seen that British Columbia will be looked to for the major portion of the coal supply of the Pacific Coast country.

This is not on account of the richness of the coal lands or the quality of the coal, but it is brought about by the fact British Columbia contains practically the only workable coal measures outside the Province of Alberta, in the western portion of the continent.

To-day good workable coal lands are at a premium, that is, properties which are feasible for immediate operation, which require the property to be on a railway or fronting on salt water.

The limited area of coal lands workable places a high price on the same, and will give the control of the market to a limited number of operators, and until more railway facilities are available the coal supply will be in the hands of a monopoly.

It is an unfortunate condition of affairs yet owing to the geographical construction of the country it cannot be helped.

Of the coal areas in British Columbia that have been thoroughly prospected and tested, Graham Island, a limited area of land opposite Prince Rupert, distant 400 miles from Vancouver, is destined to produce per acre more coal than any other district, and in fact to be a greater coal producing community than any other similar area in the world.

It is particularly interesting to know that the coal of Graham Island is of superior quality.

It is clean, hard, burns with the minimum amount of ash, and will undoubtedly find preference in the open coal markets of the world.

Prominently situated and occupying the key position in the known coal fields of marked coal areas on Graham Island, is the property owned by the American-Canadian Coal Company, which corporation received its charter from the provincial government at Victoria—it is a British charter. The shares are non-assessable and issued as fully paid-up. The company is a limited liability corporation.

The American-Canadian Coal Company enjoys many excellent features, prominent among which is that it owns its surface rights, not by virtue of lease or license, but by virtue of a Crown grant from the Dominion government.

It is one of the few coal companies in the Western portion of Canada that owns outright its surface rights which patent from the government carries timber, and other minerals besides coal, as well as water rights.

The surface represents many hundred acres of the very finest farming lands.

The property has been spoken of as the market gardens of Prince Rupert, since it is so close to Prince Rupert, city as to warrant the statement that it will in future be inhabited by gardeners, who will, from the fact that there is a ready market in Prince Rupert for eggs, poultry and vegetables, take it on themselves to supply this demand from the crops on the property of the American-Canadian Coal Company, Limited, which is about to be subdivided into small farm holdings.

### About the Coal

If you can imagine yourself approaching the shore in a small boat, you can reach over the side and fill your boat with coal, since it actually stands out of the water in the form of small islands, black as ebony. The whole shore for half a mile is solid coal. Seams varying in width from 5 to 12 feet.

Careful calculation places the tonnage in two seams alone (and there are five known in this property) at 27,000,000 tons.

Suppose that the mine shipped all of a thousand tons per day, which would be 300,000 tons per year.

It would take over 100 years to absorb the coal in the two seams, yet all the while the company could pay dividends, even if the output were sold at the very lowest price coal has ever been sold for on the Pacific Coast, from 15 to 40 cent per annum.

### The Market

Graham Island stands off from the mainland of British Columbia a distance of from 60 to 70 miles. The property of the American-Canadian Coal Company, Ltd., is almost in a direct westerly line from Prince Rupert city and is distant about 70 miles, and in the course of all trans-Pacific liners and coasting steamers.

It will be the first and last call for liners for the Orient.

Prince Rupert will absorb the greater percentage of the output of the mine.

The hundreds of steamers in quest of freight for all ports of the United States, the Orient and Alaska trade, will take more than six times the output of the mine.

This means that the great problem which confronts the corporation to-day is what is the greatest amount of coal they can get out of the property each day.

What percentage of the ever-increasing demand can we take care of.

The price of coal to-day is such as to warrant the statement that it is one of the greatest profit producers of any industry in the North American continent.

Coal is saleable in the same manner and form as it comes from the mine; in other words it can be dumped from the cars as they come from the tunnel or shaft direct into the bunkers of the boat, and the operators receive payment for the same.

The American-Canadian Coal Company, Limited, is an all-British corporation, and it is named American simply to signify that the market will be in the United States as well as in Canada.

It is an aggressive and progressive corporation.

A limited issue of shares are available from the Trustee, Capt. Wilbur Johnston, at the ground floor and opening price of 20c a share, each share having a par value of \$1.

No applications will be filed and no shares issued until after the 8th day of September, although it is well to get in your ap-

plication at once, since they will be numbered and dated in the order of receipt and the shares issued accordingly.

From the number of enquiries regarding the proposition since it was first mentioned and from the general conditions surrounding the proposition it is certain that the opening sale will be very large and it will in all probability be over-subscribed at a very early date.

If you do not wish to be disappointed wire or send in your application by mail at once or call at the office of the Trustee, 124 Hastings St. W., Vancouver and make it personally.

With your application, which must not be less than 100 shares, enclose your cheque or money order or draft, payable to the order of the Trustee, Wilbur Johnston, for a sum equal to 10c per share for each and every share applied for. The balance of the purchase price is payable in two equal monthly instalments.

As a good stroke of business it is well to consider the advisability of buying double or treble the block of stock that you intend to hold personally in the company, since by so doing you will be able to realize considerably from the re-sale of half or two-thirds of your holdings inside of 60 days' time.

The next issue which will go on in a few days will be at a price considerably in advance of 20c. Subsequent issues will be offered to the public at 35c, 40c, 50c, 60c or 75c per share.

You will surely double your money in a few weeks. This means that before you make your deferred payment you have a handsome profit on your investment.

You can buy 100 shares now with \$10 cash, or 1,000 shares with \$100.

This is an opportunity you should take immediate advantage of. Here is an investment that you will never regret. Don't hesitate.

### "DO IT NOW"

Particulars will be furnished to those interested on application at the office of the trustee, Wilbur Johnston. Send in your application at once or call and make the same personally.

The Office of the Trustee, Wilbur Johnston, is Situated at 604 Broughton St., Victoria, B.C. and is open daily to 9 p.m.

### SOCIALISTS GET A NEW LOCATION

Will Be Allowed to Hold Meetings on Johnson Street in Support of Candidate

The Socialists of the city of Victoria gained a point from the city council last night when that body granted them the right to hold public meetings on Johnson street, near Government, in face of the resolution recently passed confining all such meetings to Yates street at a point below Langley.

In petitioning for the privilege it was explained that after the election on the 21st the meetings would no longer be held. It appears that that particular location has been selected by the Socialist candidate for the purpose of airing his views in regard to reciprocity. The guarantee that the meetings would cease immediately after the election, secured the majority of the aldermen and ensured the granting of the privilege.

E. McGaffey, secretary of the Vancouver Island Development League, brought before the attention of the council the danger to school children

on the streets in the vicinity of the various schools throughout the city from motors and other vehicular traffic, and suggested that it would be a good thing to have notices of warning posted up on the sidewalks warning the drivers to approach cautiously.

Ald. Langley thought the chief of police was the official who should look after that. If a few people were arrested and brought before the magistrate he had no doubt that the trouble referred to would speedily end.

Ald. Ross thought the idea of notices was too good to be lost sight of. Ultimately it was decided to refer the communication of Mr. McGaffey to the chief of police.

The suggestion of the S. P. C. A. that the city should install five or six more disinfecting troughs for the benefit of the increasing number of horses operating in the city was referred to the city engineer for a report upon the expenditure, etc., that such a proposition would involve.

It was reported by the city assessor that after being advertised for the statutory period no adverse petition had been lodged against the plan to widen Hillside avenue to a width of seventy-five feet from Douglas street to Cedar Hill by the expropriation of seven and a-half feet from each side of the existing street.

A protest against the harbor development represented by the intention of R. V. Which and company to erect a large wharf, extending out into the harbor for a distance of 500 feet, was brought before the council in a communication from Frank Higgins, so-

licitor for Mrs. Chapman, who owns two lots at the corner of Kingston and St. Lawrence streets, and who claims that her property, which has always been regarded as waterfront property and upon which waterfront rates have always been levied, will lose its identity and value as a result of the proposed wharf. The matter was referred to the city solicitor for a report.

The city has received tenders for the painting of Point Ellice bridge from Carmichael & McGilligan for \$1410; J. F. R. Schmidt, \$1560; Newton & Greer, \$900. Tenders for the supply of 10,000 pounds of line wire have also been received from the Canadian General Electric Company at a figure of \$16.70 per cwt.; Northern Electric Manufacturing Company at \$18.05, and Messrs. Hawkins & Hayward at \$17.56. The above have been referred to the purchasing agent and city engineer and electrician for report.

### MUNICIPAL TRAMWAY SUGGESTED

Edmonds, Sept. 8.—Rumors of a municipal street car system were heard at the Burnaby council meeting. The question arose out of a communication received from the North Burnaby Ratepayers' Association, which advised the council that a monster petition was being presented to urge them to inaugurate a municipal motor bus service within the municipality. In speaking to the letter Councillor Colclough referred to the need for a better tram service in the municipality, and pointed out that the best place for the estab-

lishment of a municipal carline would be in North Burnaby. He also mentioned that the power could be obtained from the Western Canada Power Company.

Another communication was also received from the same body, stating that they had passed an unanimous resolution urging the council to at once take a vote of the people on the present B. C. T. R. Co.'s franchise. The clerk was instructed to write to the association to the effect that negotiations were going on between the council and the company and that it would be inadvisable to take any action at present.

### DISLOYALTY AND ANNEXATION

Finding it impossible to discuss the reciprocity agreement on its merits as a trade proposition pure and simple, its opponents have been driven to the use of foolish annexation talk. They would not dare to tell any individual that his loyalty will be impaired if he purchases American products for less than he buys them now, because the average citizen would resent such impertinence. Instead they say that "Canada will be annexed." The inference that the people of this country will sell their allegiance simply because the duty on natural productions is to be removed on the part of Canada and the United States is an insult to the intelligence of Canadian people. If certainly is being resent-

most prominent medical men, told a Times representative a few days ago that the people of Ontario "pooh-poohed" the annexation cry. By using it the Conservative politicians are constantly slandering Sir John A. Macdonald, Sir John Thompson and other fine old Tories who sought a similar reciprocity arrangement with the United States for thirty years. Sir James Douglas, whose memory is cherished by every British Columbia as a stout advocate of reciprocity

### Hay's Hair Health

Restores color to Gray or Faded hair—Removes Dandruff and invigorates the Scalp—Promotes a luxuriant, healthy hair growth—Stops its falling out. Is not a dye.

\$1.00 and 50c. at Drug Stores or direct upon receipt of price and dealer's name. Send for sample bottle. -Falls Hay Specialties Co., Newark, N. J., U.S.A.

Hay's Hair Health Soap is recommended for Shampooing the hair and keeping the scalp clean and healthy, also for red, rough chapped hands and face. 25c. at Drug Stores.

REFUSE ALL SUBSTITUTES

For sale and recommended by D. H. Campbell

with the United States and one of his reasons was that it would make food stuffs cheaper to the people of this province.

Do the people of Victoria feel themselves annexed when, during a visit to the Sound cities, they make purchases in the stores? Do they think it will affect their allegiance if they get the same American meats and fruits they have been consuming for years cheaper in consequence of the removal of the duty? Did our Tourist Association think of annexation when for years they sent Mr. Herbert Guthbert to Washington, Oregon and California to start the immense tourist traffic to this city which is now in progress? Did the Canadian Pacific Railway Company and the Grand Trunk Pacific Company fear annexation when they constructed their magnificent coasting steamers to enter to the American trade? And what about the provincial government? They have sold millions of dollars worth of lands and timber resources to companies whose headquarters are in the United States. In the old days before the Canadian Pacific railway was built, all our trade was north and south. From the American states we obtained our food supplies and much of our capital for the development of our resources. People from the east and England could not reach British Columbia except through United States channels. Did this cause a diminution of our loyalty? Of course not, because British Columbia is so

day and always has been the most enthusiastically loyal portion of Greater Britain and is proud of the fact. The same condition can be applied to Canada as a whole. In spite of hostile tariffs Canada's trade with the United States is more than half our entire foreign trade and yet Canada was never more truly devoted to the Empire. The only annexation sentiment that ever existed in Canada arose when our people were debarred from the United States markets. That sentiment died as soon as we began to develop a market in the states south of the boundary line.

### What Reciprocity Means to the People of Canada

Reciprocity with the United States is now at the disposal of the Canadian people. It rests with parliament or the electors to say if we are to have the benefits of the enlarged free market, which it will bring. Look at the new market possibilities in the list of Canadian products which would thereafter have free entry into the United States:

For the Farmer	Onions.	Paying posts, railroad ties and poles.
Horses and mules.	Apples.	Wooden staves.
Swine.	Pears.	Pickets and palings.
Sheep and lambs.	Peaches.	For the Miner
Poultry.	Grapes.	Feldspar.
Wheat.	Butter.	Mich.
Oats.	Cheese.	Asbestos.
Barley.	Fresh milk.	For the Consumer
Beans.	Fresh cream.	Lower duties on a host of articles such as:
Potatoes.	Eggs.	Meats, fresh or refrigerated
Corn.	Jay.	Bacon and hams.
	Straw.	Beef and pork, salted.
		Canned meats and poultry.
		Lard.
		Tomatoes and other vegetables.
		Wheat flour and oatmeal.
		Prepared cereal food.
		Bran, middlings and other offals of grain.
		Macaroni and vermicelli.
		Biscuits, wafers and cakes.
		Canned fruits.
		Agricultural implements.
		Cutlery.
		Paving stones.
		Clocks and Watches.
		Carpets.
		Motor vehicles.
		Laurier and the Larger Markets is the policy for Canada.
		Timber, hewn, sawed or squared.
		Sawed boards, planks, deals.

**To the Housewife**

We take the liberty of asking you to inspect our lines of hardware before buying; we firmly believe we can satisfy you, both as to price and articles desired. May we be favored with your next purchase?

**BUILDERS' HARDWARE**

All kinds of it. The best of it. Prices right. Give us a trial.

### PLATINUM CLAIMS IN THE KOOTENAY

#### Wholesale Staking of Ground Calls Forth Note of Warning

Nelson, Sept. 8.—Dr. Gordon French, who discovered the platinum metals while experimenting with Nelson gold slimes, has issued a warning against indiscriminate investment in platinum claims before investigation is made, and the Daily News has cautioned the mining fraternity to avoid even the appearance of wild-catting platinum properties. These warnings have been called forth by the frenzied claim staking for miles around that could be thought to be a platinum dyke has been located upon, and enthusiastic prospectors are carrying the new will-o'-the-wisp far afield. The reports of ranchers along the river below Nelson making armed guard against encroachments were perfectly true. So exaggerated are some of the ideas that have got abroad that injury will be done if the public is not on its guard, and for the protection of all concerned a plain statement of the facts seems to be required.

After a life time spent in English and Australian laboratories in the processes for the reduction of refractory ores, Dr. French, Complex Ore Reduction Company at Vancouver, and at Nelson erected a small plant, where he attacked the problem of the refractory zinc ores of the Kootenay. If the zinc of this district is once placed on the commercial footing of lead, Kootenay mining will develop another great branch, a goal toward which the Dominion department of mines is also working. Dr. French has already produced plates of pure zinc here, but that is another story.

One of the constant problems of a mining country is that of "increasing the recovery." In other words, the loss of values in the waste, in tailings and slimes. Last January Dr. French, contemporaneously with his zinc ore experimentation, turned his attention to the slimes from the stamp-mill at the Granite-Poorman gold mine, at the request of the owners, the Kootenay Gold Mines, Limited, and commenced a search for a re-agent that would precipitate the fine particles of gold suspended in the waste water from the tables, particles that would take weeks to precipitate by gravity, and which constitute a large percentage loss in every stamp-mill in the country. Storage tanks were constructed, and in the residue a foreign substance was found which Mr. French was not long in identifying as osmiridium. Tracing this find to its source, the osmiridium crystals were found to be contained in rock from a dyke—a vein of igneous origin that "intersected the various quartz gold-bearing ledges of the Granite-Poorman group at right angles. Separating this compound into its components, and thoroughly testing the rock of the dyke, Dr. French found platinum, palladium, and iridium, the three valuable platinum metals, "in satisfactory quantities," and also osmium, which was not found in any of the platinum group, but are not especially valuable. Commercial platinum is worth from \$43 to \$44 an ounce, palladium is worth \$57, and iridium \$74, all of them being more valuable than gold.

Negotiations are now in progress between the Kootenay Gold Mines, Limited, and Dr. French, for a commercial process for treating the rock of the Granite-Poorman dyke.

Dr. French's discovery was known in inner circles for months before it was finally given out, after having been fully and authoritatively confirmed. The result is that every dyke in the vicinity of the city is being assayed for platinum. In one other dyke—the original one—the platinum metals have been found "in satisfactory quantities," while traces have been found in quite a number. There is no step from the present discovery to actual platinum mining. On the other hand, the discovery merits the world's attention.

### POLICE SUB-STATIONS

Vancouver, Sept. 8.—That it is absolutely imperative for the proper policing of the city that three sub-stations be constructed at an early date, and that preliminary action be taken with a view to establishing a new police headquarters, was the statement made by Chief Constable Chamberlain at the meeting of the police commissioners. The chief of police set forth in very emphatic terms the needs of the force. He contended that in comparison with other departments the police department had been neglected; that in view of the rapid development of the city it was absolutely necessary that it should receive more attention from the council. Considerable money had been expended on buildings for the school board, and on apparatus for fire-fighting, while the police department had been left in the background. Commissioner Kirkpatrick remarked that some fifty men had been added to the force at the first of the year. "And one would hardly note the increase in number," commented the chief. "The men have been swallowed up in the various districts of the city."

Deputy Chief Mulhern warmly seconded the petition for increased accommodation and additional machinery for the more adequate carrying out of the work of the department. It was decided that the chief should have outline plans prepared.

Chief Chamberlain stated in regard to the recent resolution of the finance committee referring to the question of fruit stores, etc., closing on Sunday in his department, that he could take no move in the matter without the authority of the attorney-general. Commissioner Kirkpatrick moved that the city solicitor should be instructed to continue the matter.

The motion was carried.

It is estimated that, for ammunition alone, the cost of a big sea battle would work out at well over a million pounds an hour.

### AT LAST, A CURE FOR RHEUMATISM

#### "Fruit-a-Lives Cured Me" Says Mrs. Baxter.

"I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without help.

"I saw 'Fruit-a-lives' advertised in 'The Telegram' and decided to try them. After I had taken one box, I was much better.

"When I had taken three boxes, I could use my arm and the pain was almost gone.

"After taking five boxes I was entirely well again. The cure of my case by 'Fruit-a-lives' was indeed splendid because all the doctors failed to even relieve me. 'Fruit-a-lives' cured me.

"MRS. LIZZIE BAXTER,  
 4 Home-Place, Toronto, Dec. 15, '09."

In hundreds of other cases, "Fruit-a-lives" has given exactly the same satisfactory results because "Fruit-a-lives" is the greatest blood-purifying medicine in the world. "Fruit-a-lives" the famous fruit medicine, regulates the kidneys, bowels and skin, and prevents the accumulation of uric acid, which is the prime cause of Rheumatism.

"Fruit-a-lives" will positively cure every case of Rheumatism, when taken according to directions. 50c a box, 6 for \$2.50, or trial size, 25c. All dealers or from FRUIT-A-LIVES LIMITED, Ottawa.

### RAISING FUND TO AID IMMIGRANTS

#### Movement by Vancouver Board of Trade—More Active Policy Suggested

Vancouver, Sept. 8.—It is the intention of the Vancouver board of trade to have \$25,000 guaranteed by one hundred guarantors to start an association to be called "The Imperial Reunion Association of Vancouver, B. C.," to make temporary advances to deserving Britishers here who may desire, but would otherwise not be able to bring their wives and families to this city. Two thousand dollars was guaranteed at the meeting held at the board of trade when the proposal originated.

It is felt that such an association would be of great benefit to many. In connection with "The Imperial Reunion Association of Vancouver," the following resolution was put to the meeting:

"1. That an association be formed under the auspices of the Vancouver board of trade to be called "The Imperial Reunion Association of Vancouver, B. C."

"2. That the object of the association shall be to make temporary advances, repayable with bank interest by deposit at time of advance and subsequent monthly instalments, to deserving men resident in Vancouver who desire to bring their wives and (or) families to this city.

"3. That guarantees be obtained from the guarantors in the sums of \$200 each to be deposited as collateral security with whatever bank may be selected as bankers for the association.

"4. That as soon as the guarantees have been obtained a meeting shall be called to appoint a governing committee to formulate rules for the operation of the association, to appoint a trustee, to decide upon a bank, etc."

Just before the close of the meeting E. H. Heaps stated that, although the activity of the Vancouver board of trade was sometimes criticized, he knew that they had done, and were doing, much valuable work. Still, he wished something could be done to arouse more activity and interest in the work of the board, and he thought it would be a good departure to hold the meetings in the afternoon.

President McCandless agreed that the attendance for a city like Vancouver was simply disgraceful. The men who did come to them, however, did most valuable work, but he would like to see more members than 250 and more activity in the board.

Mr. Heaps proposed that a committee should be appointed to look into the question, which suggestion A. Shaw seconded, and Ewing Buchanan thought perhaps something might be done to bring the board into closer connection with the Tourist Association, which would, he considered, be a very useful thing. He also approved of the suggestion for after the time of the meeting of the afternoon. At least, the experiment might be tried.

The resolution being carried, Mr. Heaps was appointed chairman of the committee, the other members to be afterwards selected.

### CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

### MUNICIPAL NOTICE

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To construct a permanent sidewalk on the east side of E. 2nd street, from Millie street to Esquimalt road;
2. To grade, drain and tar macadamize Dalton street, from Esquimalt road to Wilson street, and construct permanent sidewalks on both sides of said street with curbs and gutters, also said street with sewers, surface drains and water mains;
3. To grade, drain and tar macadamize Suffolk street, from Dalton street west to Bowley Place, and to construct permanent sidewalks on both sides of said street, also to sewers, surface drains and water mains;
4. To grade, drain and pave with asphalt pavement the lane to the west of the rear of the Victoria, B. C. Board of Trade Building, as shown on a map deposited in the Land Registry Office on the 10th of July, 1911, and numbered 219;
5. To construct a permanent sidewalk of concrete 6 ft. wide on the west side of St. Charles street, from the Fairfield road to the sea;
6. To grade, drain and construct permanent sidewalk on the north side of Richardson street, between Vancouver street and Cook street;
7. To construct a permanent sidewalk on the north side of Richardson street, between Vancouver street and Cook street.

And that all of said works shall be done in accordance with the provisions of the Local Improvement General By-Law, and amendments thereto, as reported to the Council, and in accordance with the provisions of Section 4 of the By-Law, upon such and such cases against the various portions of real property to be benefited by the said work, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a

Sunday school took place Monday at White Lady beach. Equinault. The young people left town in cars for...

Lord's Supper.—The sacrament of the Lord's supper will be administered at to-morrow morning's service.

St. Columba.

Anniversary.—The church anniversary which was celebrated last Sabbath was an unqualified success.

Congregational First Church.

Y. P. S.—On the stroke of 8 by the clock on Monday evening next a very delightful programme will be launched...

Church Business Meeting.—The postponed business meeting of the church is called for Thursday evening at 8 o'clock in the church.

Coming Events.—The Y. P. S. have arranged with Miss McBride, at present in the city, and of Oakland, Cal., to provide an evening's entertainment...

Methodist Metropolitan.

Visiting Pastor.—Rev. John Robson of the Vernon Methodist church, and chairman of the Okanagan district, will be in the city last week and filled the Metropolitan pulpit last Sunday evening...

Epworth League.—A very important meeting of the Epworth League is announced for Monday evening next at 8 o'clock, when various elections will be made to fill vacancies in the official ranks.

Young Ladies Club.—The officials of this society are very anxious that the fall and winter work might be entered upon as early and enthusiastically as possible, and with this in view...

Sunday School Committee.—Last Tuesday evening saw the completion of the work of reorganization and grading of classes, and when the rally is over, which has been arranged for the last Sunday of the present month...

Board Meeting.—The regular monthly meeting of the joint boards of the church will be held on Wednesday evening at 8 o'clock. Full attendance is requested.

Sermon Series.—The pastor will continue his series of sermons on "Christ's Message to the Churches" to-morrow morning.

James Bay.

Reception Service.—A service indicative of the church's growth was conducted by the pastor last Sabbath morning, when thirteen candidates for church membership were received upon profession of faith, and six were transferred from other circuits.

Victoria West.

Epworth League.—A very fine meeting was held last Monday evening under the auspices of the Epworth League, when the contest which has been in progress for several weeks was concluded.

Entertainment.—A celebrated entertainer, in the person of Miss McBride, who has already given several performances in the city, is to provide the programme at an entertainment in the church on Wednesday evening next.

Shawnigan Lake.

Picnic.—Through a printer's error in last week's report, the day of the Sunday school picnic was given as Sunday. It should have been Saturday. Apologies are offered.

BAPTIST.

First Church. To-morrow's Services.—The pastor will occupy the pulpit at both services to-morrow. Morning subject, "The Doors of Opportunity." In the evening Mr. Warnicker will deal with the question, "Is It Possible for Everyone to Believe the Gospel Story? If Not, What Then?"

Union Circle Meeting.—On Tuesday afternoon at 3 o'clock a union meeting of the Women's Mission Circles of the local Baptist churches will convene in First church.

Young People.—The social committee of the B.Y.P.U. are planning a social reunion of the members on the evening of September 18.

Missionary Address.—On next Thursday evening in First church a mass meeting of Baptists will be held. Rev. A. A. McLeod, for many years a worker among the "Telegons of India," will deliver an address.

Emmanuel.

Sunday Services.—The pastor, Rev. William Steveson, will preach on Sunday in the morning on "The Soul's Awakening"; evening, "The Chance World and the Real World." Baptism at the close of the evening service.

Young People.—The B.Y.P.U. will open the fall session on Monday at 8 o'clock. There will be a social, and when reports from conventions will be submitted.

Elocutionary Entertainment.—Miss McBride will give an entertainment on Tuesday evening at 8 o'clock in the school room.

Missionary Meeting.—A united missionary meeting will be held in the First church on Thursday at 8 p.m., when Rev. A. McLeod and Mrs. McLeod, Baptist missionaries from India, will give addresses.

German Lutheran St. Paul's.

Picnic.—The congregation and their friends had an enjoyable picnic on Labor Day at Macaulay Point.

Epworth League.—This young but energetic society of young people will on Tuesday evening give a "clipping party" for the benefit of the church.

Farwell Meeting.—The monthly social meeting of the young people will be held on the 13th instead of the 20th, and will be in the nature of a farewell to Miss Papke, who leaves for Montreal to take up her final year at McGill.

Jewish Congregational Emanuel.

On the 3rd instant the annual meeting of above congregation took place, when a large number of the members were present.

The affairs of the congregation were found to be in a very prosperous condition, the attendance at divine worship showing a very marked increase during the past year, which fact is attributed to the beautiful and stirring sermons delivered by the pastor, Rev. Dr. E. Friedlander.

PASTOR RUSSELL'S SERMONS

Richmond, Va., Sept. 4.—Pastor Russell of Brooklyn tabernacle preached here under the auspices of the International Bible Students Association (local branch—sectarian), composed of the truth-bearers from all denominations.

Asked why such great crowds always attend his addresses while the churches of all denominations are complaining of slim attendance, he replied, "The people are thinking. Perplexed by the infidelity and higher criticism taught in the principal colleges and pulpits, many desire to have an interpretation of the Bible consistent with itself and not at war with the wondrous exercise of reason. The scriptures foretell our day, saying, 'There shall be a famine in the land; not a famine for bread nor a thirst for water, but for the hearing of the Word of the Lord' (Amos viii, 11). No fairy tales can thoroughly satisfy intelligent thinkers, whose numbers are increasing. Many of those who attend my services and many who read my sermons in the public print, long since ceased to attend the church services."

Two services were held—one for the public, considering the great "Hereafter," the other, which was repeated for his text God's call to men after he had slain his brother and Cain's reply, "Where is thy brother?"—Am I my brother's keeper? (Genesis iv, 9). The speaker said in part:

No one can dispute that individualism, personal independence, personal responsibility has done much for the development of our race. The sermons and publications of the past were unfavorable to individual thought, responsibility and action. No wise and good man would desire to rob his fellows of independence of mind.

We are in danger, however, of going to the opposite extreme—in danger of carrying the subject of personal independence too far—in danger of neglecting some who should have assistance—in danger of thinking of all men as being not only free but equal.

It was in view of inequalities of the flesh that St. Paul wrote to the church, "We that are strong should bear with the infirmities of the weak, and not to please ourselves." (Romans xv, 1). This principle, applied by the Apostle to the church, would certainly be appropriate and beneficial to the entire human family—"Of one blood God created all men to dwell upon the face of the whole earth" (Acts xvii, 26).

"Where is Thy Brother?" "The inquiry of Cain implied his responsibility, and teaches us a lesson respecting our responsibility in God's sight for one another. We will begin with the church, the highest type of brotherhood imaginable: We should not be content to split into sects and parties. Whatever was the ignorance of the past which led to the formation of the various creeds and denominations, there can be no excuse for these now, because Christians of all denominations have come to discredit the old creeds. Should there not, then, be a movement toward heart unity and fellowship, outside of denominational and creedal lines, amongst those who recognize God as the Father, the Lord Jesus Christ as the Redeemer, and the Bible as the Divine Revelation? It is not proper to say, as did Cain, 'Am I my brother's keeper?'"

Every true Christian should realize that to-day Christianity is being assaulted in its own land and by its proselytes in the colleges and seminaries of all denominations a battle is raging which threatens the destruction of our Christian faith. Possibly a few are blind to the situation, but the insurgents—the higher critics and evolutionists—realize the situation and are craftily seeking to lead the people astray upon the walls of Zion; hearken to our cry; all is well! These higher critics seem to have no conscience. They claim that the people must be gradually taken by guile. They encourage them to sleep while they raise over them the banner of infidelity called higher criticism.

Many who see the killing of this anti-tyranny of Cain implied his responsibility by saying, "Am I my brother's keeper?" not realizing that from the Divine standpoint they have a responsibility toward every other Christian with whom they are in contact. They should realize that loyalty to God means that they should "hate the earth, the prates of Him who hath called us out of darkness into His marvelous light." In a word, every true Christian, who has made a full consecration of himself to the Lord to walk in the footsteps of the Saviour, should waken to the fact that the time mentioned by St. Paul when "every man's work shall be tried as by fire" (I. Corinthians iii, 13).

The Day of Reckoning.

The all-seeing eye of our Creator keeps watch over the affairs of His creatures to-day as it kept watch over Abel's interests. God allowed Cain to have his way; allowed him to kill his brother; allowed the righteous to suffer; yet Cain did not escape, but was held accountable for the death of his brother. God's sentence upon him separated him from his brethren until he cried out that his punishment was greater than he could bear.

And similarly we may be sure that the Cain class of our day will be held accountable for the awful slaying of their brother, especially to the extent that the brother despised may be a child of God. As God declared that the blood of Abel cried to Him from the ground—cried for justice—so the intimation of the Scriptures is that all injustice of every kind, everywhere, will bring a "just recompense of reward."

St. James intimates that this release will come to this class at the coming of Messiah in power and great glory, at the establishment of His kingdom or righteousness in world. He says, "Have patience, brethren, the coming of the Lord draweth nigh." The Lord speaks of this "day of recompense" as a "time of trouble"—"The overthrow of oppression, the quelling of the proud, and those that have no helper" (Psalm lxxvii, 12).

CONSERVATIVES WANTED IT.

In 1886 down to the opening of this session the government has been persistently urged by the opposition on the floor of parliament, on the public platform, and through the press of the country, to do something to secure better trade relations with the United States.

They said we buy from them \$217,000,000 worth, and sell only \$104,000,000, showing a balance of trade of \$113,000,000 a year against us. This they said should not be.

With all the arguments at their command they said the government should try and get better entrance to their markets for what we have to sell, so that our trade would move nearly balance.

Only December last Hon. George E. Foster, writing for one of our magazines, advocated reciprocity in natural products.

Mr. Northrop, one of the chief opposition front benchers in speaking on the address in reply to the speech from the throne at the opening of this session, said if we could only secure reciprocity in natural products, they (the Conservative party) would hold up both hands for it.

Dr. Chisholm, the Conservative member for East Huron, also speaking on the address in the same debate, in the following words:

"I have said that the Conservative party would hold up both hands for it. Dr. Chisholm, the Conservative member for East Huron, also speaking on the address in the same debate, in the following words:

# Victoria Homes

By E. Stanley Mitton

Every great achievement in the world, every one of those little conveniences and comforts which we have grown to consider indispensable, was once only a thought in a man's mind. The human race is descended from the man-like apes, whose migratory disposition induced them to forsake the sheltering forests and take to the plains. And because they did forsake the protection of the trees and were thrown on their own resources, they became the most intelligent race of animals the world has ever known. For man is only an intelligent monkey.

A monkey who thinks. What is thought? Thought, answers the dictionary, is either the act or operation of the mind. Some writers claim that thought is divine and that mind is a manifestation of divinity. This may or may not be true—I do not know—but I am confident of one thing—that without thought there can be no progress.

When our monkey ancestors were chilled by the penetrating and unaccustomed blasts which swept across the plains, being protected no longer by the boughs of the forest, they made holes for themselves in the ground and, with evolving intelligence, artificial shelters of a primitive nature. Centuries passed; by slow gradations these anthropoid apes developed into what we now call men; stronger and larger dwellings were planned and built, partly as a protection against the elemental forces of nature and partly to secure the inmates against the attacks of their fellow-men.

The soft-footed years continued to slip away, as they have a habit of doing. Tribes waxed great and powerful, waned with other tribes, declined and became part of unremembered history. Egypt grew to greatness on the banks of the Nile, and constructed the pyramids, which tell us practically all we know of the Egyptians. "If one were to list the wonders of the world in our day," says a historian, "the legitimate number would swell far beyond the classical estimate of seven; but it may be doubted if among them all there would be any more justly accounted wonderful than those same pyramids."

The pyramids were built for the tombs of kings, but we, more practical, build our houses for the living. And every house which is built is

the manifestation of thought. Thought, first, on the part of the couple who wanted a home for themselves and a place in which to bring up their children.

Then thought on the part of the architect who drew the plans and outlined every part of the dwelling.

Then thought on the part of the contractor, who told his men just what to do.

Then thought on the part of every man employed, from the unskilled laborer who helped dig the hole for the foundation, to the decorator who put the finishing touches on the interior.

Building a home is a mental process, and owning a home is a mental process.

It is told of Thomas W. Lawson, of Boston—he of "Frenzied Finance" fame—that when he was a youth he painted a mental picture of a large estate on which there was the finest breed of horses, and the choicest cattle in the world; a beautiful home furnished and filled with objects of artistic value; and everything else necessary for the completion of his conception of an ideal home—the gaining of the wealth necessary for its purchase. It was like the thing in the details of the picture, the image of which never faded from his mind.

And so it is with owning a home of your own. You must form a mental picture of what you want and then bend every effort to fill in the picture. As Solomon said two thousand years ago, "Where there is no vision the people perish." Perhaps the accompanying designs will form an agreeable beginning for a mental, creative picture of a home of your own. It is a most attractive specimen of an eight-room semi-bungalow, with a wide-spreading gable roof, a spacious entrance, and windows which afford ample light and ventilation. The ground plan, as shown, should be carefully studied; the convenience of its arrangement is certain to be remarked, and it will be seen that all the rooms are of good size. You will notice that the pantry is situated between the dining room and kitchen, so as to keep away all odors from the former room. On the second floor are three good bedrooms, all of which are provided with closets.

## FINANCES OF CANADIAN PACIFIC

### LONDON PAPER ON COMPANY'S PROGRESS

#### Trade Expansion and Economy in Operation Has Resulted in Large Profits

London, Sept. 8.—The following interesting article appears in the London Standard, one of the most important financial papers in England, under the caption "Canadian Pacific Railway, Its Great Strength."

It is always a pleasure to describe the position of a company which is progressive and at the same time conservative and well managed and the affairs of the Canadian Pacific cannot fail to satisfy the most exacting critics. In our railway section issued in July we showed the great progress of the Canadian Pacific and the effect of its progress upon the welfare of Canada. There can be no doubt that Canada, primarily, owes its great expansion in recent years to the men of enterprise who built the Canadian Pacific and proved that the wilderness through which the railway passed was capable of supporting an unlimited population. The prosperity of the company to-day indicates the harvest which is being reaped, not only by its shareholders who risked their capital in constructing the railway, but by the people of Canada who are gaining such immense advantages from the development of the Canadian Pacific railway are receiving a dividend of 10 per cent upon their stock, but the rate of interest on the total capital for the construction of the railway is much lower than 10 per cent as the debenture and preference stocks were placed at low rates of interest. As far as we can judge the people of Canada are deriving upwards of 30 per cent of the increased income which the country is deriving from the construction of the Canadian Pacific

and the security holders of the Canadian Pacific are participating to the extent of less than 10 per cent. It should, of course, be noted that a large part of the income of the Canadian Pacific at the present time is derived from the influx of settlers and for the business of carrying the goods, machinery and lumber required for the development of their lands and the erection of their houses and that the income which the Canadian Pacific derives from the carriage of products to market and on the goods purchased by means of the produce forms only a portion, although of course, the major portion of its income. But, however the matter is calculated, it is evident that the people of Canada have received immense advantage both actually and in proportion to the advantage accruing to the security holders of the Canadian Pacific from the construction of the railway and that the building of the line has brought great good fortune both to investors and to the people of Canada.

In considering the dividend of 10 per cent which the Canadian Pacific railway is now paying it is essential to recollect that the distribution is provided as to 7 per cent, out of the earnings of the railway and as to 3 per cent of the interest received from the investments and interest upon the deferred payments of land sales, and that as far as the charge to the people of Canada is concerned for the services rendered by the railway the interest paid is only about 4 per cent, upon the loan and preference capital and 7 per cent upon the common stock, an average of just over 5 per cent, certainly not a high return, taking into account the risks that were run and the advantage which the railway has been to Canada. The extra 3 per cent dividend accrues from investments and from interest on deferred land sales. If the proceeds of land sales are entirely excluded the surplus to profit and loss and the various reserve funds exceeds \$70,000,000, and this sum has been almost sufficient to pay for the whole of the company's investments. Thus it will be evident that the company is not unduly burdening the trade of Canada in order to pay a high rate of dividends. It may be said that the advantage to the shareholders of the Canadian Pacific is greater than we have indicated, taking into account the large amount of land which the company received from the Canadian government and the proceedings of land sales. In other words, the whole of the cash cost of road equipment and the

whole of the sum received from the land sales has been treated in a similar manner. It will be recollect that up to 1904 the company carried in its balance sheet as a liability a sum of \$30,000,000 received as subsidy and bonuses and that at that time it had received \$36,193,000 from the land sales and that in 1905 these amounts were deducted from the cost of railway and equipment. Since 1904 an additional deduction of \$4,258,770 has been received from land and tonnage sales, of which \$34,116,000 is still due in respect to deferred payments.

On making our calculations we have deducted from the cost of the road and equipment, the whole of the bounties and the whole of the sums actually received from land sales so that the capital account has been kept down to the extent of three bonuses and land sales. The interest upon capital accrues only upon the net cost of the road after the deduction of the subsidies, the bounties and the land sales; in other words the people of Canada have themselves derived in low freight rates and passenger fares the whole of the advantage secured to the company by the bounties and land sales. But for these the capital account would be \$82,000,000 greater than it is. To the extent of the land sales and subsidy the capital account will be smaller than otherwise it would be and the rates and fares needed to pay a reasonable rate of interest upon the capital will be correspondingly lower than would otherwise be necessary. In brief, the company by the wisdom of its policy is returning to Canada the whole of the advantage it has derived from the bounties it has received and the proceeds of its land sales and only is giving to its shareholders a reasonable return upon the capital they have actually subscribed in cash, either by subscriptions to stock or by appropriation of undivided profits, to capital, including the unsold land and the sums expended out of land rates and bounties for capital purposes, the total net value of the undertaking is about \$743,000,000 against liabilities of only \$443,000,000. Thus there is a surplus of assets over liabilities of \$300,000,000. The Canadian people will ultimately derive the benefit of this great surplus. By keeping down its capital account in the manner it is doing the company is able to charge lower rates and fares than otherwise would be necessary and at the same time to pay a reasonable rate of dividend upon its securities. It should be clearly understood that the 10 per cent dividend now being distributed by the Canadian Pacific is be-

cause it has kept capital account down by employing the bounties received and the sums derived from land sales.

The expansion in the traffic and earnings of the Canadian Pacific railway of 237 per cent in the last ten years indicates the remarkable speed with which the business of a young country may develop. Canada has not since the early seventies experienced the great contraction of trade which has come from time to time to her great American neighbor. It should, however, be noted that the relative freedom of Canada from great trade contractions has been largely due to the fact that her progress until about ten years ago was relatively slow. Considerations of this character have doubtless caused the directors of the Canadian Pacific railway to follow the conservative financial policy they have pursued in past years and to distribute their profits with great care. Moreover these considerations will doubtless cause them to continue their conservative policy in the coming years in which in the absence of untoward events Canada will continue to enjoy a period of great prosperity. In spite of the fact that in the past year the company has increased its dividend to a 10 per cent basis, the distribution is still conservative in proportion to the returns for the year ending June last. The profit available for dividends upon the company stock was \$32,155,000. The dividend of the 9 1/2 per cent distributed calls for a sum of \$17,300,000, and had 10 per cent dividend been paid for the whole year the sum required would still have been only \$18,000,000, and there would have been over \$14,000,000 of undivided profits available for capital purposes. A margin of \$14,000,000 really means that the company could see a shrinkage in its traffic and gross earnings of something like 20 per cent, before the profit would cease to be sufficient to provide the 10 per cent dividend. It will be apparent that a shrinkage of 20 per cent in traffic and in earnings is a very large sum, and that to have a margin of this kind indicates the conservative manner in which the company's financial policy is controlled.

There is an idea that a further increase of dividends to a still higher basis than 10 per cent may take place, but those persons who expect an increase in distribution would do well to remember that it is wiser to pay a dividend which the company can maintain in good and bad years alike, than to distribute a dividend which would have to be seriously cut in a time of depression. From 1899 to 1902 the dividend was 5 per cent, from 1903 to 1906 it was 6 per cent, from 1907 to 1910 it was 7 per cent, and now that the dividend has been placed up in a 10 per cent basis any further increase is unlikely until the profits increase to such an extent that a higher dividend can be paid with the prospects of maintenance. The large increase in the profit of the company in recent years has resulted not only from the great expansion in traffic, but also from the increased economies with which the traffic has been handled and which has enabled the company to meet the higher rate of wages without affecting the prospects of the gross receipts available for interest upon capital. In the past year the proportion of the gross receipts absorbed for expense was less than 45 per cent, or under the average of recent years, notwithstanding the higher rates of wages. Although the mileage of the system is being rapidly extended the growth of the traffic is still more rapid in proportion. In ten years the traffic per mile of road increased 141 per cent. The great increase in the balance sheet of the company in the train loading which has resulted will be evident from the freight report. This year's Canadian wheat crop is large, and as the prices it will realize are likely to yield good profits the

country should maintain a high degree of prosperity. We are distinctly hopeful that the political difficulties in Europe will be adjusted. With the maintenance of peace there is every prospect that the flow of British capital to Canada will be maintained and that with good harvests Canada in general and the Canadian Pacific railway in particular will enjoy a period of still greater prosperity in which its profits may attain to a still higher level.

The body of E. Lloyd Magnus, cashier of a Portland, Ore., baggage company, who disappeared on the eve of his marriage, has been found in the river. There is nothing in the appearance of the body to indicate that death was other than accidental. Magnus was rowing on the river Tuesday night and on Wednesday the empty boat was found drifting in the stream.

### A NOTEWORTHY CIRCUMSTANCE

The Conservative leaders are endeavoring to make capital out of the fact that a number of millionaires who have been Liberals are opposed to the reciprocity programme of the Liberal Administration.

We think the fact that the bitter opposition of the present Conservative leaders to reciprocity emanated from a number of moneyed men who are essentially out of the "common people" is a noteworthy circumstance and one which is a striking commentary upon the political situation.

The fact that a man calls himself a Liberal does not make him a Liberal. For instance, Mr. Clifford Sifton was once a Liberal with Liberal ideas, but the more wealth he accumulated the further away he grew from Liberal beliefs.

Mr. Sifton's break from the Liberal party is not solely one of difference of opinion upon the question of reciprocity, but is merely the culmination of a growing estrangement dating several years back.

There is no change in the Liberal party. The change is in Mr. Sifton. The acquirement of money has altered Mr. Sifton's point of view, that is all.

The Liberal party is essentially and fundamentally the party of the people, and the fact that a few tariff millionaires or a few prominent agents of tariff millionaires are up on this occasion opposed to reciprocity is of itself a very good reason why the "common people" should support the Liberal policy.

The tariff millionaires secure their wealth through exactions from the masses of the people, whom they compel to pay tribute.

One of the doctrines of Liberalism is the greatest good to the greatest number. If the Liberal party represented only the moneyed interests it would no longer be the Liberal party. But it stands for the good of the country as a whole. This is why it is so vitally the party of the "common people."

On the 21st of September the "common people" will again be triumphant.

## Fort George

It will be one of Canada's largest cities. Because it is the geographical and strategic-commercial centre of British Columbia.

The junction of 1,000 miles of navigable waterways. So situated that all railroads building through Central British Columbia—north, south, east or west—must build to Fort George following the waterways.

Fort George is on the line of eleven railroads that are to be built.

British Columbia is Canada's largest and richest province.

The best part of British Columbia is tributary to Fort George. When comparing Fort George to any prairie city it is only necessary to point out that Fort George has all the resources of any of the prairie cities in the way of agricultural possibilities of the country tributary to it. In addition it has an immense timber area, assuring the development of the lumber industry.

Coal has been discovered within ten miles of Fort George and it is the supply point for the great Carboniferous district which has produced one hundred million dollars to date.

A 500 horse power water-wheel is within three miles, thus insuring cheap power for manufacturing purposes.

No city in Western Canada can class with Fort George in regard to richness and extent of natural tributary resources.

In making your investments don't overlook the fact that all the new cities can not be Winnipeg or Vancouver.

There will be a repetition of Winnipeg growth of Vancouver's financial triumphs.

In casting around for the next young giant among cities you cannot get by Fort George.

The more you compare Fort George with other cities—made and in the making—the more you will be convinced of Fort George's future greatness.

The "big" money is being made by those who get in at the beginning of a big city.

Write to us for facts, proofs and full information in regard to Fort George and Central British Columbia.

The second week of the theatrical season sees the Victoria theatre occupied every night, and by large audiences. Two nights of the Juvenile Bostonians pleased all who saw the meritorious performances of those young people. "Forty-five Minutes" from Broadway" paid what has become an annual visit and was as usual well-received; on Thursday the feature of the week was the appearance of Henry Miller in "The Havoc," and last evening Miss Jeanne Russell returned for a short engagement.

All next week the house will be occupied after a political meeting on Monday evening, by the Mack-Leone Co. with Miss Russell, in "The American Girl." With an odd dark night there will be a theatrical attraction every night this month.

Williams Stock Company. It is by Hal Reid, author of "La Belle Marie" and many other successes. "Roanoke" was written by him while in the south, and all the characters are absolutely true to life.

Miss Pinkle Mullally has played the leading role many times, and is seen to special advantage, while the same can be said of Mr. Van Dyke, Mr. Alden, as the grasping old miser, gives a great character conception, while Mr. Cyril plays Capt. Forrest, a part to which he is well suited; Mr. Sweatman, a big-hearted Southern gentleman, and Miss Ora Wolf will no doubt shine in the part of old Aunt Dina, as she has played it many times.

There will be no rough places in "Roanoke," the first production, as all the company are well up in the different parts. A new member of the company will make his first appearance Monday evening, and "The Holy City" was in rehearsal for next week, but owing to Mr. Williams' illness it became necessary to change it at the last moment.

Stock Company at Victoria. "The American Girl," which has been chosen by the Mack-Leone company as their opening bill, is a happy combination of thrills and laughter. It is an old

concert here is scheduled for Wednesday, September 20, at the Victoria theatre.

"Jumping Jupiter."

The most pronounced musical success of the past two seasons in the east was undoubtedly Richard (himself) Carl and his great company, headed by Edna Wallace Hopper, in "Jumping Jupiter," and now this star and his success are to be seen at the Victoria theatre shortly. The critical and popular verdict is that "Jumping Jupiter" is the finest of modern farces with music, and quite the ideal entertainment for all who seek amusement and relaxation—and that practically means all theatregoers.

seasons, and in which part he has achieved widespread fame. Other members of the cast are George M. De Vecs as "Uncle Neb," Helen Gurney as "Aunt Althea" and Miss Theora Carter as "Barbara," the jealous rival of "Madge." Walter Fredericks will appear as "Horace Holton" and Andrew Rogers as "Frank Layson."

The pickaninny—a score or more of them—will be part and parcel of the presentation, in their boyish antics, their singing and dancing, and their playing musical instruments, as the Wandoodle brass band.

"The Girl in the Taxi."

The Emperor of Germany is said to have visited the theatre where

This very expensive and dual-producer is believed to have not a little to do with the cyclonic success which the production registered in the Windy City, and now that the original cast has been sent on tour, an opportunity will be afforded many people to see for the first time a big metropolitan success precisely as it is presented in metropolitan centres.

### STOP AND THINK

The Tory party is asking for your support upon a basis of higher protective duties. What does this mean? It means higher cost of living.

The leaders of the Conservatives tell us that we want no trade arrangements with nation in the present condition of the United States, but they nevertheless ask us to perpetuate in Canada the very tariff which has brought about existing conditions in the United States, a tariff the folly of which the United States are at last themselves recognizing as highly injurious and designed solely to make a few men rich at the expense of the many.

The Conservative party is absolutely committed to higher duties and it is well known that the campaign to-day is being financed, not by the honest manufacturer who is ready to live and let live, but by the greedy and avaricious, heartless and moneyed aristocracy, who are determined to increase their wealth and their power by compelling all the people to pay tribute to them.

To do this it is, of course, necessary that they should enlist the sympathy of the people whom they intend to rob. The ordinary mortal is not deliberately going to allow himself to be robbed, and so he is led to believe that he is going to be made much better off through a larger sphere of work, more pay, and fewer hours of labor.

Having lulled the wage earner into this blissful attitude of mind, the rest comes easy. Up goes the tariff and up goes the cost of living, and the poor wage earner finds it harder and harder to make ends meet, and on and on goes the daily grind.

MISS JEANNE RUSSELL

Who will appear with the Mack-Leone company in "The American Girl," at the Victoria Theatre all next week, commencing on Tuesday evening.

Although Carlo has never appeared here as a star his reputation as a fun-maker has long preceded him. He was never funnier than in his present play, and no comedian can be funnier than Carlo at his best. The superior company of comedians, singers and dancers by whom he is surrounded constitute a cast of unequalled excellence.

Edna Wallace Hopper, dainty and demure in appearance, brilliant in comedy and modish in gowning, will be much admired in the role of the act's model. Nothing more novel than the stage business of her song, "I Like to Have a Flock of Men Around Me," has ever been seen on the local stage, when four stalwart men toss her about

"The Girl in the Taxi," under the name of "Like Father, Like Son," was playing when the piece was produced in Berlin last season. Anthony Mates, the author, is known as the Emperor's favorite playwright, and has been decorated for his many successes which have set all Europe laughing with delight. "The Girl in the Taxi" is acknowledged as a masterpiece of wit, and contains no side-splitting complications than half a dozen of his other efforts combined. "The Girl in the Taxi" will be seen at the Victoria theatre very soon.

"The Sweetest Girl in Paris."

Harry Askin employed the services of two expert stage-producers for "The

JOHN PHILIP SOUSA

The famous bandmaster and composer, with his band, is on the way from Australia, and will play in the Victoria Theatre on Wednesday evening, September 20.

ertainers with their odd German-English sketch. Here as elsewhere it is expected Rice and Candy will be the fun-makers of the week, for in their own line there are none funnier.

An act of a different kind entirely is that of Mrs. Jules Levy and family, who will offer a musical melange, offering the opportunity for the widow of the late musician, Jules Levy, to display her talent on the violin, and for Jules Levy, Jr., to be heard on the cornet. The performers are pupils of the talented musician, and their repertoire contains both the classical and the popular, and makes one of the best combinations in musical vaudeville today.

An English comedienne is now making her first bow to American and Canadian audiences. She is Ida Barr, a dainty and captivating young woman, who brings English songs, not before heard on this side. Through the present tour she has been pronounced a great success, possessing a contralto voice and displaying much variety of wardrobe.

A dancing act is billed, the performers being Miller and Mack, who are said to have no superiors in the art of dancing. They have appeared in all the principal theatres, winning much praise in the press and among their associates in the business.

The sketch this coming week is in the hands of Albert Weston and Nellie Lynch, who present "The Fainting Girl." Miss Lynch was in Lew Field's "Jolly Bachelors," occupying the principal role, and Albert Weston is the brother of the noted English comedian of that name. The duo has been accorded most enthusiastic receptions on the Sullivan & Crandall tour.

The Empresscope band, Herr Nagel's orchestra are billed as usual.

Princess Theatre.

"Roanoke," a five-act comedy-drama, will be presented all next week by the

favorite and has pleased audiences in all parts of the English-speaking world.

The character of Ross J. Bolter is one that is the ambition of all comedians to play, embodying as it does all the sterling qualities of the best sort of an American. He divides the interest of the audience with Prince Roy, an engaging and lovable child, played by Miss Beth Crael, a pert little soubrette who astonishes everyone by becoming a great actress and taking London by storm.

The first act of this absorbing play takes place in a Virginia village, and the succeeding ones in England among the socially great.

Miss Jeanne Russell, who has just finished her season in "Cousin Kate," has been engaged by the Mack-Leone company to play Jasmine in "The American Girl." Miss Russell's work is too well known to require comment here.

Mr. Brandon plays Ross J. Bolter, and among the other members of the cast there are some unusually good specialists in singing and dancing.

Sousa and His Band.

When Sousa organized his famous band his purpose was to combine the best qualities of the symphonic orchestra with those of the military band.

"The symphony orchestra," declares Sousa, "had been taken too seriously by the conductor and the public, while the military band was required to play at all sorts of odd things—head the regiment one day and play in the park the next. When I received my appointment as leader of the United States marine band I decided that there should be a band in which music of the lighter type would balance the heavier symphonies. I rearranged the instruments in such a manner that I was able to include in my programme classic as well as popular music."

Sousa has followed the same theory with his present organization, which includes 80 musicians, the majority of whom are soloists of the first rank. His

IDA BARR

The celebrated English comedienne, appearing next week at the Empress.

the stage like a human shuttlecock. It is assured of a cordial welcome in the city where she is so well known.

"In Old Kentucky."

An early booking at the Victoria theatre is the always welcome classic drama "In Old Kentucky," which will be given as usual with a sumptuous scenic equipment, a capital company and the ever-entertaining pickaninny band. Miss Mildred Johnson, who scored a big hit in the role of "Madge Briefly," the brave mountain lass of the play, in last season's company, is again with the organization.

Hert G. Clark will play the Colonel again, as he has been doing for many

Sweetest Girl in Paris," which ran for more than 300 performances at the La Salle opera house, Chicago, last season, and which will appear at the Victoria theatre at an early date with the original cast and production headed by Trilix Friganza. The dramatic and humorous features of the book were entrusted to Frank Keenan, the noted actor, and for several seasons a prominent David Belasco star, while the song and dance numbers were put on by Gus Sobke, who in "The Sweetest Girl in Paris" has surpassed his own previous best work, i.e., the "Yama Yama" dance and other numbers in "The Three Twins."

### BODY RECOVERED.

Nelson, Sept. 8. — Floating down stream near One Mile point, Captain Seaman of the Kuskanook, noticed the body of J. D. Simpson, who was drowned near Three Mile point. Captain Seaman informed J. D. Campbell at Dunelm, who called up C. W. Young, chief of police, who notified J. T. Black, chief provincial constable, who went out and brought the corpse into Nelson. Simpson was drowned

while in a rowboat on his way from Nelson to Kokanee, where he was employed on the government road work. The boat, half filled with water and containing some new underclothing and a bottle of whiskey, was found thrown up on the shore near William Walde's ranch.

The oldest note in the possession of the Bank of England is dated December 23, 1688, for £55—in the bank library is a note for £25 which was not presented for 117 years.

TWIGG-LITTLE

One of the prettiest weddings of the season was solemnized in Christ Church Cathedral on Wednesday last, September 6, when Miss Marguerite Jean Little, daughter of Mr. and Mrs. Francis D. Little, became the bride of Mr. Harold Despard Twigg.

The interior of the church was beautifully decorated with masses of sweet peas, ferns and orchids, arranged with great taste by Mrs. Tilton and other friends of the bride. Right Rev. W. W. Perrin, Bishop of Columbia, officiated and the service was fully choral. The cathedral was thronged with friends of the young people.

The bride, who looked most charming in her lovely bridal gown, was met upon her arrival by a bevy of pretty bridesmaids. She was escorted up the aisle by her father, who subsequently gave her away. Her gown was an example of elegant simplicity, the material used being silver brocade, and the only trimming a delicate design of shamrock worked in seed pearls. A chaplet of orange blossoms was worn by her under a lovely limerick lace veil, an heirloom of the bridegroom's family, and she carried a shower bouquet of bride's roses and ferns. Her only ornament was the bridegroom's gift, a lovely string of seed pearls.

Miss Lucy Little, sister of the bride, was maid of honor, and the bridesmaids were Miss Kathleen Dunsmuir, Miss Muriel Dunsmuir, Miss Laura Audain and Miss Adele Kirkbride. Their gowns were of a lovely shade of pale pink mousseline-de-soie, threaded with aerial blue ribbon, with over-dresses of pink mousseline-de-soie and white hands of aerial blue. The little empire-coats were of pink silk taffeta caught across the corsage with empire bouquets of satin roses in pink and aerial blue. They wore pale pink hats, with touches of gold and blue and tiny bunches of roses and heather, and carried empire bouquets of pink roses.

Each wore the bridegroom's gift, an enamel butterfly brooch.

Mr. Maurice Cline acted as best man, and there were four ushers, Mr. Marshall, Mr. Cambie, Mr. Bromby and Mr. James.

During the signing of the register Mrs. R. H. Pooley gave an exquisite rendering of "A Little Prayer" by Frances Lechl.

At the reception which followed at the residence of the bride's parents, "Highlands," Rockland avenue, the bride and bridegroom received the congratulations of their many friends in a marquee which had been built on one of the lawns and which was profusely decorated with white gypsophila and white chrysanthemums. The bride's table on which stood the handsome wedding cake, was arranged in a beautifully decorated arbour with climbing clematis trained over white posts and massed with bride's roses and ferns. The refreshments, which were served on a lawn, had for its decorations quantities of pink and white sweet peas, while the tables were arranged with pink roses and ferns.

Mrs. Little wore for her daughter's wedding an elegant gown of white satin with an overdress of black chamois, the trimming of the corsage and skirt being of white hand embroidery in blue chenille. The becoming hat worn was of white chiffon over black velvet leaves, the brim underlined with black velvet, and the only trimming one long, white plume tipped with blue.

Mrs. Freeman, grandmother of the bride, was given a very handsome wisteria-colored soft satin, with an overdress of chiffon in a deeper shade trimmed with wisteria and silver embroidery, with yoke and sleeves of cream-shaded lace. Her toque, of the deeper shade of wisteria, was arranged with lovely cream saucer plumes tipped with wisteria and touches of silver embroidery.

Mr. and Mrs. Twigg left later by motor on their honeymoon. Mrs. Twigg's travelling gown was a tailor-made cloth coat and skirt of dark blue, with a dark blue beaver hat, trimmed in simple style with touches of green and blue.

The presents, which form a magnificent collection, were as follows:

Major and Mrs. Audain, cheque; Mr. and Mrs. J. L. G. Abbott, silver mustard pot; Col. Henry Appleton, Wright's Flowers and How to Grow Them; Mr. J. Arbutnot, half-dozen silver fruit knives; Mr. and Mrs. Appleton, Sheffield plate dish; Mr. and Mrs. Arbutnot and Miss Arbutnot, silver ink stand; Master Jimmy and Miss Laura Audain, flange silver salt and pepper pot; Mr. and Mrs. and Mr. Teddy Amberg, pale-cut-glass decanters.

Mr. and Mrs. V. Bogue, sofa cushion and table centre; Miss Bogue, silver photo frame; Rev. and Mrs. Baugh Allen, silver flange glass vase; Mr. Albert Brown, travelling clock; Mr. and Mrs. R. P. Butcher, picture in frame; Miss Butcher, leather hand-bag; Mr. and Mrs. Bissell, silver bon-bon dish; Mrs. Charles Bennett, pottery and silver tea pot; Mrs. Balthasar, cut-glass and silver vase; Rev. Mr. and Mrs. Barton, pair cut-glass almond dishes; Mr. and Mrs. and the Misses Blackwood, silver bon-bon dish; Mr. and Mrs. Bird, silver and copper ink stand; Mrs. R. S. Bristol, centre piece and doilies; Mr. and Mrs. Brett, silver photo frame; Mr. and Mrs. G. H. Broad, Dresden china compote; Mr. and Mrs. F. S. Barnard, silver card tray; Mr. and Mrs. E. V. Bodwell, reading lamp; Mrs. J. Bryden, pair silver toasters; Mr. K. Bryden, bronze vase; Mr. and Mrs. J. Bryden, silver photo frame; Mr. and Mrs. H. E. Beasley, photo frame; Mr. and Mrs. Crow-Baker, opera glasses; Mr. Harry Bullen and Mr. Douglas, cut-glass whiskey decanter; Mrs. Browne, Irish crochet jacket.

Mr. Lewis Cary, cigarette holder; Capt. and Mrs. Basil Combe, set of silver salt cellars; Mr. and Mrs. Cookson, silver paper knife; Mr. and Mrs. Clement, Cornwall china cake plate; Mr. Maurice Cline, H. A. Cromley, F. J. Marshall, J. Cambie, D. Trevartha James, case of one dozen knives and forks, case of one dozen fish knives and forks, fish carvers, silver clear box; the Misses Bodwell, cut-glass compote; Mr. W. N. Coulson, onyx and bronze dining room clock and onyx and bronze candlesticks; Mrs. N. Combe, silver bon-bon dish; Mr. and Mrs. H. Carmichael, silver bon-bon dish; Mr. and Mrs. Colby and Douglas, glass chafin dish; Mrs. Florence Cullen, tea cloth; Mr.

"Oh! Goody, Goody! It IS FRY'S."

"Do Let Us Have Some FRY'S Cocoa"

Is it any wonder the dear little kiddies slip out of their cot and steal downstairs when they "suspect" that father and mother are treating themselves to some "Fry's"? Will mother give them a drink too? Yes, indeed she will, for she knows that the best drink they could have, anytime, is

FRY'S

Fry's THE Cocoa

Throughout the world "FRY'S of Bristol" is known as the synonym for cocoa and chocolate in their purest and most delicious forms. The history of the cocoa trade is the history of the colossal business of J. S. FRY & SONS, Ltd., of Bristol. It is the oldest firm of chocolate and cocoa manufacturers in the world, for letters patent were granted to the ancestor of the present generation of the family by King George in 1723.

The Bristol works of J. S. FRY & SONS, Ltd., comprise eight great buildings and employ more than 5,000 hands. The purity and excellence of their chocolate and cocoa have won more than 300 Grand Prix, Gold Medals and Diplomas in open and international competition, and in the course of the long history of nearly two centuries the firm has received many marks of Royal favor. Her late Majesty Queen Victoria in the early part of her reign, appointed FRY & SONS by Special Warrant Manufacturers of Chocolate and Cocoa to the Royal House.

His late Majesty King Edward, whose warrant as Prince of Wales the firm held for nearly forty years, confirmed the appointment after he ascended the Throne.

Give the children Fry's Cocoa OFTENER. So much better, more enjoyed and safer than milk—especially these cold days. Easily and quickly prepared—enriches the blood, builds up and fortifies the body.

Surpassing Good For Everyone—Anytime And remember "Nothing Will Do But Fry's."

Trade Supplied by J. S. Fry & Sons, Limited, 123 Bannatyne Ave. East, Winnipeg, Man.

Try a Cup Fry's Cocoa at the Fry Booth in the Industrial Hall at the Exhibition

His Majesty King George V., whose warrant they held as Prince of Wales, has honored them with his Royal brief as King, as have also her Majesty the Queen, her Majesty Queen Alexandra, her Majesty Queen Margherita of Italy, their Majesties the King and Queen of Spain, and their Majesties the King and Queen of the Hellenes. A similar mark of Royal favor came long ago from France when, in 1867, the late Emperor Napoleon by a special brevet, appointed them Manufacturers of Chocolate and Cocoa to the Imperial House, and Messrs. FRY still have the honor—one that they prize very highly—of numbering her Imperial Majesty the Empress Eugenie among their illustrious patrons.

This record of honors is as magnificent as it is unique. It is a tribute how after nearly two hundred years' competitive industry the firm of FRY'S is still foremost, that while advancing with the times and adopting and utilizing the most modern methods and machinery, it has maintained, undeviatingly its standard of the highest purity and quality in its goods and the fullest value for money. Whatever bears the name of "FRY'S" is of the best. By no other means could the firm have so triumphantly stood the test of time.

Special Notice to Public

**SOCIAL AND PERSONAL**

B. J. Perry spent a couple of days in Seattle this week.

Dr. Ernest Hall came over from Vancouver last evening.

Mrs. Thomas Scott, Seattle, are the guests of Mrs. John Brown Oak Bay.

A. Sturtevant left yesterday on a visit to Quincy, Mass. via the Chicago-Milwaukee Railway.

Robert A. Renwick, deputy minister of lands, and Mrs. Renwick, are visiting Prince Rupert.

Mr. and Mrs. Blizzard left yesterday via the Chicago Milwaukee Railway, on a visit to New York.

Mrs. Phipps, Carberry Gardens, will leave next week for Alberton, where she will spend about a month.

C. P. Dexter and party, Seattle, came over yesterday to make a motor tour of Vancouver Island.

Mrs. Frank Watkins is ill at St. Joseph's hospital, having undergone an operation for appendicitis.

Mr. and Mrs. George Bevilockway, Nanaimo, are the guests of Mr. and Mrs. Thompson, 116 View street.

Mr. and Mrs. Percy Bates, who were married in Vancouver recently, are spending their honeymoon here.

Mrs. John Stone, Winnipeg, who has been visiting friends and relatives here, left on Friday on her return home.

Dr. and Mrs. Edgar Mc-Micking are making a short visit to Mr. and Mrs. J. B. Leighton, Glenbrook, Savona.

Fred Soule, the veteran Government agent, Clinton, has returned home after a pleasant holiday on the coast.

Mr. and Mrs. A. Joss, who were recently married in Vancouver, are spending part of their honeymoon in this city.

Capt. and Mrs. Cockburn left last evening for Woolwich, Eng., where Capt. Cockburn will make a special study of gunnery.

Mrs. W. H. Eakins, Toronto, who has been visiting in Vancouver, arrived in this city on Wednesday and will remain some weeks.

Miss Mary Point and Miss W. Hicks, Ottawa, who have been the guests of Mr. and Mrs. Wade, Cadboro bay, have returned home.

Mrs. E. O'Connell, of Marshfield, Ore., who has been spending some days here with her sister, Mrs. Minto, left for her home this morning.

Mr. and Mrs. Charles Wilson, and Miss Newby, who have been visiting Mrs. A. E. Short, Willow Beach, left on today's boat for Vancouver.

At the manse, on Thursday evening, Rev. Dr. Campbell celebrated the marriage of Mr. Charles Alfred, Carew, of Leno, Wash., and Miss Germa Lakness, of Vinland, Wash.

Miss McMillan has now resumed her duties in the dress-making parlors at David Spencer, Limited, after spending a delightful holiday with her friends.

Mrs. Melville, New Westminster, mother of the Premier, Miss McBride, his sister and two of his daughters, have returned from Prince Rupert, where they spent a holiday.

A marriage was solemnized between

Mr. James Blackhall and Miss Minnie Douglas at the residence of Mr. Blackhall, 7411-1/2 Avenue, on Thursday afternoon. The officiating clergyman was Rev. H. P. Thorpe, of the Burnside mission.

Mr. and Mrs. T. C. Dryden, River view, Ont., who are visiting Mr. and Mrs. Sharpe, Vancouver, formerly of Dundalk, Ont., with their host and hostess and Mr. Marbles, Vancouver, are in the city to-day. They are greatly charmed with what they have been able to see of Victoria.

An interesting wedding took place on Wednesday at Christ Church, Vancouver, that of Miss Eva Blanche Weart, daughter of Mr. and Mrs. J. W. Weart, and Mr. Alexander A. Lefurgey, a former member of parliament, son of Hon. A. and Mrs. Lefurgey, Summerside, P. E. I. The service, which was fully choral was conducted by the Rev. C. C. Owen. Mr. and Mrs. Lefurgey are going abroad for their honeymoon and will be away six months.

The tensile strength of a wet rope is found to be only one-third of the same rope when dry, and a rope treated with the lubricant permits the fibres to slip with greater facility. A dry rope 25 feet long will shorten to 24 on being wet.

**The Evening Chit-Chat**  
By Ruth Cameron

"It matters little where I was born whether my parents were rich or poor. Whether they shrank from the cold world's scorn or walked in the pride of wealth secure; But whether I live an honest man, And hold my integrity in my clutch I tell you brother, plain as I am, It matters much."

From the Swedish in The Optimist's Good-morning.

Refinement is a most desirable quality. No one can deny that.

But over-refinement is just as much a vice as the other is a virtue. No one who has ever met a person who is suffering from a case of over-refinement can possibly deny that.

A woman has just moved into our neighborhood who belongs to this class.

She is a scion of a splendid stock. She has been finely bred. She has been splendidly educated.

But she has neither inherited nor acquired one inestimable thing—a sense of values. She has but one criterion of worth. It is refinement. If she might assist in the final separation of the sheep from the goats I believe that the people who possessed refinement of taste and manner, no matter what their other qualifications or lack of them, would be courteously directed to Elysium while those who lacked refinement no matter what trifling recommendations, such as sterling character or spiritual worth they possessed, would be firmly steered off in the other direction.

This woman, since her coming into the neighborhood, has naturally met many new people. I have chanced to be with her a great deal and have been astonished and saddened by her treatment of some of them.

If she decides that a new acquaintance is sufficiently refined, her manner is exquisite in its cordiality and evidence of breeding. She is every inch a beautiful gentlewoman.

But if she decides that a new acquaintance is somewhat lacking in refinement, she becomes so eager to draw a line of distinction between this creature and herself, that she loses all her own refinement. Politeness so cold that it is scarcely politeness at all, and even positive rudeness, characterize her manner.

And the worst of it is that many of the people who are thus treated are people of great mental and moral worth.

One is a woman with great brains and ability, who, besides managing her home to perfection, has so much helped her husband in his business, that though people of moderate circumstances, they have been able to send their four children to college. She herself lacked an early education and has never been able to quite overcome some little roughness of speech. Consequently she is anathema.

Another is a man whose innumerable charities are as beautiful as they are unostentatious, and whose family life is one continual lesson in "the fine art of being good to live with." But he will wear colored shirt and ties that do not always harmonize and he has mastered a few of the minor details of good manners, although in all that rests on unselfishness and true courtesy, he is most perfectly versed.

Another is—but why tell you more? You know them all—the simple, kindly, crude, efficient, splendid folks whom such a woman as she, cannot possibly understand.

If the loss were not so decidedly hers who deserves it, one might feel much more sorry. As it is, we can only sigh and think, "refinement is a desirable quality but over-refinement" — well let's add it to our collection of vices to be preserved from.

Ruth Cameron

CANADA MONTHLY.

"Is the church losing its place in modern social organization?" Dr. Shailer Mathews, dean of a famous divinity school, says emphatically "No," in the first of a series of three articles about "The Revival of the Church," which appears in September Canada Monthly. "Within the last five years, and particularly within the last two or three years," he says, "churches of all denominations have been passing through a very remarkable awakening. It is no time for friends of the Church to despair; it is rather time for them to take account of stock, and realize on their assets. They have been counting their liabilities too long."

W. A. Blonck, a well-known aviator, writes on "Being a Birdman," with a curious account of how it feels to fly. Frances Hodgson's story of "The Woman's Way" is unusually placed in the north of Ireland; Currie Love writes on "The Glad Hand West, and Some of Its Givers," who live in Calgary; Frank Houghton tells an Eskimo love-story in "The Price He Paid." "The True Flame" completes W. D. Eaton's articles on the unseen world, and "The City" in her "Pedlar's Pack" revolves wistfully feminine questions. There is also fiction and verse by W. D. Nesbit, T. A. Daly, M. de Leon, Sara H. Birchall, A. B. Hogg, and others. The illustrations are by Percy E. Anderson, F. M. Grant, C. O. Longabaugh, and others.

# STORY OF STRIKE OF WORKINGMEN

### Labor Leader Tells How British Workmen Will Settle Problems

Out of all the medley of industrial disorganization with which Great Britain has been threatened there has arisen the cry definite, vehement and persistent. "What is it all about?" For months past a phrase has been passing in the common coinage of the workingman's English—Industrial solidarity. Its meaning was not apparent to everyone who used it. There was a general idea that the industries of the country were inter-dependent and that the rights of the workmen in one section were to be asserted over all sections.

There came almost with the suddenness of a thunderclap the first direct outcome of the movement for industrial solidarity—the beginning of industrial paralysis.

It seemed strange to the uninitiated that nothing less drastic than a general strike would meet the views of the leaders of the movement. Workingmen had far more reason to be satisfied with conditions to-day than they had, say, ten years ago. For the third consecutive time a Liberal government in power assisted to office by the parliamentary Labour party.

There has been much legislation moulded by Liberalism and garnished by Socialism. Trade unions have been lifted practically beyond the pale of the common law. They can strike and boycott and picket with freedom.

Workingmen have got old age pensions; they have labor exchanges. The right of men to work has been practically conceded. Workmen's compensation for injuries sustained during employment is an established principle and national insurance to which employers and the state shall contribute is promised. Why then a general strike to paralyze the national energies when at their maximum of achievement?

Let Mr. Tom Mann, the leader who is behind the whole movement, be called to give evidence. Put in brief terms and stripped of vagueness and verbiage what is wanted is a wage of two pounds a week—\$10 a week—for all. Here is what Mr. Mann himself says: "Some seven years ago many of the leaders among the working men came to the conclusion that trade union methods had so lamentably failed that other means must be found. So they resorted chiefly to parliamentary action.

"In the opinion of large numbers of us, even parliamentary action has not proved effective. Instead, therefore, of disorganizing organization in the workshop, the movement we are identified with recognizes no social or industrial change for the better can take place except in proportion as industrial organization is accompanied by the elimination of sectional trade unionism. The older movement relied chiefly upon finance; that there should be no struggle unless there was a big war chest. The modern movement does not depend upon money. It depends entirely upon agreement among the men and the exhibition of what we term the 'solidarity' of the workers. More can be done in five weeks on the basis of solidarity extended over a wide enough area than can be done in a whole year with unlimited money in the absence of this solidarity. We are definitely aiming at reducing poverty and ultimately abolishing it by the force of industrial organization on the basis I have explained.

"We started this fight two months ago without money and with only some 12,000 or 13,000 unionists among seagoing men and dockers. Now the unionists have grown to fully 50,000, and each of the unions has considerable income and has also achieved substantial monetary gains and other conditions favorable to the men. The railway men for whom we are battling are the lowest paid in the service, their rates ranging from 11s a week to 24s. Many of them are not organized, but these are now joining the unions and union men are working on the basis such as I have described.

"It is evident that we are going to win. It will not be a great win; the demands are small—merely the reduction of hours to 54 a week, two shillings a week advance in wages, and the recognition of the union. But it is only the preliminary to more complete solidarity. I would not create the impression that any settlement arrived at will last for any number of years. We still distinctly and persistently encourage men to make further demands until all men are able to earn and enjoy a substantial livelihood.

"The general strike is the most powerful weapon at our disposal, but at present we are only resorting to a general strike over a small area in the transport industry. It may spread and it looks at the hour like spreading over the greater part of the country. If so it will be all to the good. For it is worth a good deal of industrial disturbance to wipe out much of the accursed poverty that afflicts the people. The outlook for the workers is one of glorious promise. There is no real necessity for anyone in this country to be working under £2 a week income, not even a laborer, and we shall continue to fight on the basis of industrial solidarity, greatly extending the area we are covering and the industries affected at one time to enable us to achieve that end.

"As regards the effect upon prices, we shall take special pains to prevent artificial prices being run up by traders and others launching out into co-operative production and distribution. This is a phase which will extend with corresponding rapidity to the present growth of organization by industry as against that of organization by trade. An instance of the opposite method of procedure quite recently occurred with the wool-combers of Bradford, a branch of the textile industry, which was shamefully overworked and shockingly underpaid. The wool-combers struck work and were out for several weeks. Other branches of the textile industry looked on and expressed sympathy, and voted money, but did not exhibit solidarity, so the wool-combers lost. It was a mad method, and never could win."

## ANGELICAN SYNOD

### Proposal to Establish Province of British Columbia.

London, Ont., Sept. 8.—Legislation on the third ecclesiastical programme of the Anglican church in Canada was inaugurated at the general synod meeting Thursday, when the recommendation of the house of bishops for the establishment of the province of British Columbia was placed before the delegates.

The recommendation of the upper house, which outlined the proposed organization of the province, was by a vote of the lower house sent to the committee on canons, who will present their report prior to the general discussion over the new province. This, according to the outline of the house of bishops' recommendation, will comprise the dioceses of Columbia, Kootenay, Caledonia and New Westminster. It is likely that this third province, if it is established at this synod, will be different from the two present provinces, Canada and Ruperts Land, for there is now before the synod a notice of motion by the Bishop of Caledonia that in the event of the establishment of a province of British Columbia, the two houses, bishops and delegates, will sit together. Further than this, the same bishop has a second notice of motion that there be no archbishop of the new province, and that its metropolitan do not assume the title of archbishop until there are at least five diocesan bishops within the province.

At the morning session yesterday Bishop Morrison and W. B. Butler presented the greetings of American church. The message of Bishop Tuttle of Missouri, presiding bishop of the United States, was presented by Mr. Butler.

# THE BEST REMEDY

## For Women—Lydia E. Pinkham's Vegetable Compound

Belleville, Ont.—"I was so weak and worn out from a female weakness that I concluded to try Lydia E. Pinkham's Vegetable Compound. I took several bottles of it, and I gained strength so rapidly that it seemed to make a new woman of me. I can do as good a day's work as I ever did. I sincerely bless the day that I made up my mind to take your medicine for female weakness, and I am exceedingly grateful to you for your kind letters, as I certainly profited by them. I give you permission to publish this any time you wish."—Mrs. ALBERT WICKETT, Belleville, Ontario, Canada.

Women everywhere should remember that there is no other remedy known to medicine that will cure female weakness and so successfully carry women through the Change of Life as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you want special advice write for Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

erful weapon at our disposal, but at present we are only resorting to a general strike over a small area in the transport industry. At the morning session yesterday Bishop Morrison and W. B. Butler presented the greetings of American church. The message of Bishop Tuttle of Missouri, presiding bishop of the United States, was presented by Mr. Butler.

BILL MINER WORKS ON FARM.  
Atlanta, Ga., Sept. 8.—"Old Bill" Miner, alias George Anderson, known to the police as a convicted train robber and highwayman, is to turn farmer—of necessity. Recently convicted of a train robbery in this state and sentenced to a convict camp, he began to fall in health and the state prison commissioners have just ordered his transfer to the state farm. He is 69 years of age, with a 20-year sentence ahead of him. He escaped from the prison at New Westminster, B. C., a few years before he was convicted in this state.

**ABOUT LIGHTNING.**

Some Fallacies and Facts—Discussion of Phenomena.

During the recent thunderstorm in Belfast, people were all discussing the effects and dangers of lightning. Some quaint opinions were expressed. A prevailing idea was that the presence about the person of a piece of metal—a steel pocket-knife or a watch-chain—was a source of danger because metal "attracts" lightning. This and similar popular errors render some explanation of the scientific facts regarding electrical phenomena of interest.

Every one knows that electricity is of two kinds, called positive and negative, and that these mutually attract each other. It requires friction or some kind of chemical action to separate the two from each other, and store an overplus of either in an insulated state. Certain substances are good conductors of electricity, certain others are poor conductors, and again some others are either very bad conductors or do not admit of the passage of the electrical current at all. The last are called insulating substances; glass, amber, dry silk, cotton, and certain gums and rubber compositions are among these. Metals such as gold, copper, iron and bronze, are good conductors, copper especially. Lead, though a conductor, is not so good, and if a strong current is sent through a thin piece of lead it is liable to melt, or fuse, with the heat generated by the resistance of its molecules to the passage of the current. This is true even of copper, but it would require an enormously higher voltage (or strength and intensity of current) to melt the same quantity of copper; in other words, copper is a good conductor. In order to store a quantity of electricity it must be insulated from all conductors which would enable it to escape into the earth, which is the main reservoir of electrical energy.

Every one knows that the clouds are the result of evaporation by the sun's heat from the sea, lakes, and rivers and the humid land. In the chemical change which takes place in the air of converting water into vapor electrical energy is generated, and a quantity of one kind of electricity is separated from the other. The vapor retains one kind, the other dispersing itself throughout the bulk of the earth. After a spell of hot weather, when much evaporation has taken place, the clouds and any floating vapors in the atmosphere become highly charged with one kind of electricity. Now, the molecules or particles of one kind of electricity repel each other as much as those of opposite kinds attract. And consequently a state of high repulsion is reached; this is called high electrical tension. And when a cold wind blows and evaporizes the clouds these sink lower in the atmosphere. When they have sunk low enough the electricity stored in them begins to act, and attract the opposite kind in those portions of the earth immediately beneath or nearest. When the clouds come above a mountain naturally the distance is much lessened, and the tension of both kinds of electricity becomes very high. It soon reaches discharging point, and the spark produced is what we call lightning. Lightning can be produced on a small scale by the electrical machine, the Leyden Jar and by rubbing brown paper. The experiment of holding the latter to the hair of the head is known to almost every schoolboy. Brushing the hair in the dark will produce minute manifestations similar to lightning. But the danger from atmospheric lightning lies in the fact that the electrical discharge is so enormously powerful that it rends and burns objects, and often kills people, the latter to be in the path of the discharge. There is a prevalent idea that lightning always comes downwards, that there is a discharge in one direction only. It would be more correct to say that there are two discharges, one down from the clouds and one up from the earth. These are also reactionary back or rebound, following the main discharge instantly. This is due to a similar principle to that which makes a ball "bounce."

Now it is manifestly absurd that the possession of a perfectly insignificant object like a penknife on a person of an almost equally insignificant object such as a nail will deflect or "attract" a flash of lightning starting from a cloud 1,000 feet or more away. People even imagine that glass windows and mirrors "attract" lightning, that a raised umbrella out of doors is a source of danger, and so forth. There is, on the other hand, far greater danger from severe winter than there would be by keeping oneself dry by the protection of a raised umbrella during a thunder-storm. But although the path of lightning is very erratic and unaccountable, and the objects it may strike are often by no means theoretically (according to the law of motion along the line of least resistance, and discharge from most prominent and direct points of discharge) the objects one should expect to be struck, there are things that it would be foolhardy to do during a thunder storm. The proximity of towers and high buildings with lightning conductors should be avoided. Give these a wide berth, avoid telegraph poles, electrical wire standards, wired fences, iron railings, mountain tops, and keep to low, open spaces or the shelter of the house. The danger from Nature's most sublime and terrible manifestation will thus be minimized.

**CAUGHT MONSTER TUNA.**

Largest Fish Ever Caught With Rod and Hook.

A Sidney, C. B. dispatch says: The efforts of J. K. L. Ross to land a tuna with hook and line have at last been successful and he arrived in port tonight the largest fish probably ever hooked by man in American waters.

The tuna was hooked in St. Ann's Bay, and is over 8 feet long and weighs exactly 630 pounds. He secured another, but it brought only 73 pounds. Mr. Ross has been fishing for this kind of fish for the past three years and has hooked many, but after fighting them from minutes to seventeen hours he had to let them go. He hooked the prize winner yesterday morning and

Agents Manufacturers' Life Insurance Company of Toronto, Can.

**ANOTHER BOMB OUTRAGE.**

New York, Sept. 9.—Just when the police were beginning to congratulate themselves that Giuseppe Constantino, "the-for" had driven the Black Hand agents here to cover, a bomb was exploded yesterday in the heart of the Italian colony. The bomb was exploded in front of the offices of the Italian Bankers and Steamship Agency. No one was hurt, but the effect of the outrage was tremendous. It was the first bomb exploded since last Saturday, a fact significant because during the last month an explosion had occurred on an average of one every three days. It is impossible to ascertain who were the perpetrators of the crime owing to the silence of the Italians for fear of retribution at the hands of the Black Hand. —When you go to the show do not miss seeing the Segia exhibit from the Skeene Lawe Photo Co. at the men's Building. Note—Studio, corner Yates and Douglas.

Amen—Teach Me Thy Way, O Lord.....Spohr
2.30 p. m. Metropolitan Sabbath school. 2.45 p. m., Belmont avenue Sabbath school. 7.30 p. m., public worship, subject of sermon, "The Beatitudes of the Un-offended";
Elevation to a Plat.....Gullmann
Amen—The King of Love, My Shepherd is here is.....Berridge
Solo—O, Eyes That Are Weary.....F. H. Brackett
Evening, subject, "Economy, True and False." Sunday school and adult Bible classes at 2.30 p. m. Teachers' meeting for the study of the lesson at 7.30 Thursday evening, followed by the prayer meeting at 8 o'clock. All are welcome.

BAPTIST

First, temporary building, corner Yates and Quadra streets. Rev. John B. War-nicker, B. A., pastor. Public worship tomorrow at 11 a. m. and 7.30 p. m. The pastor will preach. Morning subject, "The Door of Opportunity"; evening sermon, "Is It Possible for Everyone to Believe the Gospel Story? If Not, What Then?" Sunday school, with ladies' Philia, tea and men's Baraca classes, immediately following the morning service, Tuesday, 7 p. m. Union Mission Circle meeting and address by Mrs. A. C. McLeod.

CHRISTIAN SCIENCE

First Church of Christ, Scientist, 355 Pandora avenue. Services on Sundays at 11 a. m. and 7.30 p. m. Sunday school meets at 12 o'clock noon. Testimony meetings, Wednesday evenings at 8 o'clock; for September 10th, "Substance." All are welcome.

OTHER MEETINGS

Psychic Research Society, A. O. F. Hall, Broad street. Mrs. M. Perkins, of Ballingham, will lecture at 8 p. m. Sunday, September 10. Spiritual messages will be given after the lecture. All are welcome.
Mental Science, 1127 Government street, room 15. Hibben building. Prof. M. F. Knox, M. S. D., will address the Mental Scientists on Sunday. Subjects, 2 p. m., "Law of Mental Healing"; 3 p. m., "Aspiration in Business and Marriage"—Status free. Everybody welcome.

HOW TO DESTROY THE DANDRUFF GERM

BY A SPECIALIST.
That the dandruff germ is responsible for nearly all the disease which we call dandruff, as well as for baldness, premature gray hair, is well known fact, but when we realize that it is indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you; a ounce Bay Rum; 2 ounces Lavender Compound; one-half Drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.

CAUTION: Do not apply where hair is not desired and be sure to avoid tonics containing poisonous wood alcohol.
Great Britain manufactures \$80,000,000 worth of steel pens annually. France \$42,500,000, the United States \$106,000,000. It is calculated that over 4,500,000 pens are destroyed daily.

Some 300,000 Londoners are at present living more than two in a room; while for six or more in a room the figure is 25,000.
No spot in the British Isles is more than 30 miles from the sea.
